With deepest sincerity, the Class of 1948 dedicates this yearbook to Gertrude Rogers Rugg.

For many years as Registrar of Worcester Polytechnic Institute, she has taken a genuine interest in every student.

Her understanding and readiness to give help or advice has made her one of us.

Senior History

CLASS OF 1948

Civilians made their first appearance in number on the campus with the freshmen of the class of 1949-C. 112 of them, including five veterans, was only a half-size class although 25 Navy V-12er's bolstered the ranks somewhat. Three-quarters of the class were younger than 18, and a majority listed minor physical defects that made them ineligible for military service.

Worcester Academy came to the aid of the homeless freshmen during the first week, while special trolley cars were chartered to take the boys back and forth from one hill to the other. The fraternities glad-handed the youngsters during the week and ended up by pledging 72 of them.

The class was divided into seven groups, six civilian and one Navy. One representative from each group served until class officers were elected on August 2, 1945. They were James Meiklejohn, President; Robert Robson, Vice-President; David Dobson, Secretary; Phillip Taylor, Treasurer Frank Harding, Historian; and William Julian and Frederick Torrey, Tech Council.

Tech dropped all its football games that first year; in fact, we didn't score. The soccer team won three out of five. Cross-Country had an outstanding runner in Ed Lemieux. The basketball team broke even with seven appearing in both won and lost columns. The baseball team took one game out of five the following spring, while the track team won their only dual meet over Mass. State.

Withdrawal of the Naval Units reduced the class as it entered the sophomore year, but additions by returning veterans brought it back up again to 117. Donald Sasek was elected President of the newly named class of '48; Dick Sea-

grave, Vice-President; Roger Cromack, Secretary; Charlie Jones, Treasurer; Harry Mankin and Red Meade, Tech Council; and Hugh Robinson, Historian.

Johnny Newton, his orchestra and Alice Fitzgerald serenaded us during the Spring Fever Formal.

Starting as Juniors in September of 1946, our football team extended its no-scoring streak in its two games of the season while the soccer team won one, tied two, and lost two. Dick Horne was elected captain for the following year.

New class officers were elected in November, 1946, with Bob Adams becoming President; Jack Meade, Vice-President; John Coyne, Secretary; Dick Horne, Secretary and George Thomson and Al Raymond, Tech Council.

During basketball season John Concordia came up fast, starting with the jayvees and ending up as captain-elect for the '48 season. Roger Cromack was one of the three high scorers. The record was three wins out of 13. Just after the varsity season, the Junior class trounced the seniors in the inter-class competition. The freshmen won over the sophs the same day, but lost to the juniors in the play-off. Concordia, Cromack, Collins, Dember, Raymond, and McCormick made up the winning combination.

Bob Ballard and Sam Hassan were the class' only representatives on the swimming team as it dropped its six meets.

It was feared that there were to be no more formals because of the sad school attendance following the dances, but the Interfraternity Ball on Feb. 7, 1947 gave the school a chance to prove itself. Shorty Sherock played for us.

The Freshmen won the Tech Carnival

Trophy that year with their interpretation of a Frank Morgan radio show. The Seniors joined the class in describing life at Tech, past and present. Bob Ballard, Lou Block, Roger Cromack, Bob Nowell and John Petrillo were in the cast.

The big Junior Prom, headed by Jack Saunier, ended up the second term of the junior year. Johnny Bothwell provided the music. The Masque presented "The Male Animal" the next evening.

The annual Peel Prize went to J. Hadley "Jake" Jacobs who convinced the judges that they should buy a Bailey Bridge.

Skull tapped twelve outstanding men of the class in Bob Adams, Art Collins, John Corcordia, Buddy Dember, Dick Horne, Jim McKernan, Red Meade, Ron Moltenbrey, Al Raymond, Charlie Rehrig, Dick Tracy, and Russ Turner.

Other top honors bestowed were by Tau Beta Pi when Dave Caplan, Bob Lerner, and Bob Nowell were elected from the top eight of the class. Just before the end of the year five more men were selected for membership. They were Sam Cocks, Art Collins, Bob Dieterle, Dick Tracy, and Romeo Ventres.

In the spring of '47, the baseball team won two out of seven. Jim McKernan was elected captain for the '48 season. The track team, with Al Riley as manager, lost both of its dual meets. Buddy Dember was the class' only letterman on the tennis team.

Returning from the class' first summer vacation, Jim McKernan was elected President; Buddy Dember, Vice-President; Paul Evans, Secretary; George Pano, Treasurer; Dick Horne and John Concordia, Tech Council; and Frank Holby, Historian.

Theta Kap won the coveted President's trophy, showing their strength in scholarship and extra-curricular activities. Phi Sig and Lambda Chi were second

and third. Phi Gamma Delta won the prize for improvement in scholarship.

The Interfraternity Athletic trophy went to Sig Ep, who was a point over Phi Sig. The winners took the baseball, track, and bowling trophies, while Phi Sig won in relay and tennis. Phi Gam was third in the total standing.

The football team came back for summer practice for the first time since before the war. It showed its improvement by scoring for the first time in three years. The team couldn't break into the win column however, in dropping six games. The soccer team had a disastrous season, losing seven games. Captain Dave Brown led the cross-country team to the fall sports season's only victory as it outran Trinity. The season was marked by an unintentional bombing of leaflets by Boston College whose aim had been Holy Cross.

Tau Beta Pi's final selections from the class were Bill Beers, Hal Guerci, Vince Juselis, Gershon Kulin, Art Pike, Per Roed, Wayne Shafer, Albert Soloway, and Bill Wachter.

The class of '47's gift of \$100 made it possible to open the coffee shop in Sanford Riley Hall in November. More than 200 students have been enjoying snacks there between classes each day.

Jack Saunier, with the experience of several chairmanships of previous formals, again took the lead in securing Al Gentile for the annual Interfraternity Ball on Dec. 12, 1947. The basketball team provided Saturday evening's entertainment in a game with Norwich.

John Concordia captained the team through a season in which they almost broke even, taking six out of thirteen. John, Roger Cromack, and Jim McKernan were big guns from the class. They, together with Art Collins and Buddy Dember were largely responsible for winning the inter-class basketball competition for the second straight year.

Junior Class History

The class of '49 is the first postwar class. In October 1945, our class began its ordeal but due to the fact that most veterans had not been discharged, and many high school students were still being drafted, only 57 men, including 28 veterans, appeared in October. These were the men of '49A. Steve Ucich was the first president of this new class.

The class of '49B appeared on the scene on March 4, 1946. They went to school during the summer of 1946 to catch up with '49A so that the two classes could be consolidated in the fall as the class of '49. The second section of the class contributed 200 men of which 182 were veterans, many of them married. Many of them learned that wives can be just as critical of poor report cards as fathers ever were.

Our large number made fraternity rushing quite difficult for the upper-classmen and the fraternity attitude toward freshman hazing had to be revised to fit the older pledges.

Our class spirit was high, especially after pulling the sophomores through Institute Pond at the Rope Pull. That same night at the Tech Carnival, our class skit entitled "Big Wheels for a Day" written by Jack Mullaney and Leo Rose won easily over the sophomore presentation.

The class of '49B elected John Hawley President and Ed Dion Vice-President during that first year. On Saturday, July 27, we organized the Freshman Picnic at Green Hill Park, with wives and girl friends helping to make the affair a great success. The feature of the day was the softball game between the Applegate Apple-polishers and the Carpenter Carpet-baggers. The Apple-polishers won and were immediately challenged by the Lincoln Street Pirates, a gang of eight year old boys.

At the end of the summer, Gino Santandrea was awarded the annual Skull Trophy award as being the most outstanding freshman. Dean Amidon received honorable mention. At the start of our sophomore year, we elected Gino, President with John Hawley as Vice-President.

As sophomores, the rope pull turned out to be a failure because the rope broke. We therefore didn't have the opportunity of pulling the freshmen through the pond. In the yearly skit the decision was close between our "Progress Through the Ages," and the freshman mimic of a Henry Morgan show but the judges gave the decision to the freshmen.

We started our junior year full of vim and vigor. Gino Santandrea was again elected class President. Harry Melden, Charlie Layton, Jim O'Regan and Ed Carpenter distinguished themselves on the football field and Dave Brown carried the track honors for our class. We acquired some more new members back from the Armed service. Among them Joe Lemire who is now Editor-in-Chief of the *Tech News*. Al Deloid, Mal Ferson and Jim O'Regan were nominated to Tau Beta Pi this fall. Claude Veraa continued to turn out excellent cartoons for the *Tech News*. Dick Olson and Pete Kahn paced the swimming team, while Bob Carlson and Steve Ucich were on the starting basketball five. Jim Peepas and Pete Kalil were the Co-Chairmen of the Spring Formal which was a rousing success.

As we reach the last mile in our undergraduate career we can look back with pride at our record on the field and in the classroom, and look forward to even greater achievements before our Commencement in 1949.

Sophomore Class History

The Class of '50 returned to the Institute last September with a strength of two hundred eleven men. It is gratifying to note, however, that this number has grown to a total of two hundred twenty-four since the beginning of the second term of this year. At the beginning of the year the class was represented in the Physics Department by six students, in the Chemistry Department by thirty-eight Chemical Engineering students and four Chemistry students, in the Electrical Engineering Department by sixty-five members, in the Mechanical Engineering Department by eighty-one men, and in the Civil Engineering Department by seventeen members. The class also found itself well represented in extra-curricular activities on the campus this year.

Class elections were held early in October. John Brierly was again elected to the Presidency. After active balloting the following were chosen: Paul J. Brown, Vice-President; Bruce M. Bailey, Secretary; Paul May, Treasurer; Robert Atherton and Walter Keyl, Tech Council Representatives.

The revived Freshman-Sophomore Competition got off to an auspicious start for the Freshmen with the Rope Pull. The Sophomores covered themselves first with glory by pulling their opponents to the mirey banks of Institute Pond and then they covered themselves with mud when, hampered by the terrain, they were drawn through the water by the gloating Freshmen. When the vanquished emerged from the depths on the enemy shore, however, their terrifying appearance frightened several Freshmen into diving into the protective water.

To add insult to injury the Freshman-Sophomore football game ended with defeat for our side. Despite the brilliant playing of the Sophomore backs and their line the score was 12-0 when the game ended. The Sophomores had some consolation in that they had the edge in ground gained. "We were defeated, suh, not beaten."

The Freshman-Sophomore soccer game was the reverse of the football game with a fighting Frosh team losing a bitterly fought battle to the score of 2-0. The outstanding playing of Freshmen Fulmer, Winther, and Mayo was of no avail against the stronger upperclassmen. Ozbas and Chun nailed the Freshmen's coffin with a well-kicked goal apiece.

Following a precedent set last year the Class of '50 again presented a prize-winning skit in the Tech Carnival. The production entitled "School Spirit," starred Stuart Leonard as "The Commodore," the President of the Hypothetical Technical Institute. The head judge Professor Richard Cobb presented the silver cup.

Freshman Class History

The Class of 1951, 203 strong, met for the first time on September 22, 1947. We were the first freshman class since 1945 who were less than half veterans, and we were also the first to operate on a normal schedule. Considered as the first real postwar class, we set out with high spirits to prove that we were worthy of being called Tech men. After the Indoctrination Period, which was a dizzy series of aptitude tests, lectures, and assemblies, we settled down to adjust ourselves to the rigorous course of studies that has made Tech so well-known in the engineering field.

Our first opportunity to prove our worth was the Rope Pull, held in October. After a seemingly endless struggle, which actually lasted only ten minutes, we emerged victorious by dragging the entire sophomore team through the muddy water of Institute Pond. We again triumphed over our traditional rivals a few weeks later by scoring an overwhelming victory in the Paddle Rush, even though the sophomores were accused by some of adding extra paddles to their total. Immediately following the close of the regular football season at Tech, our freshman team, sparked by the scoring of Stan Miller at quarterback and Andy Freeland at end, subdued the sophomores, this time in a rugged football game played on Alumni Field.

The Class of 1951 suffered its second defeat on the night of the Tech Carnival. The freshman skit, a modified version of "Hellzapoppin'," written by Bob Wolff and Owen Ott. Although very well presented, it was not good enough to compete with the sophomore's interpretation of Admiral Cluverius' opening day address to the school. Among those who contributed their talents to the freshman skit were: Bill Sheehan, Maynard Nelson, Don Kolodne, Halsey Griswold, Phil O'Connor, Antonio Renasco, Lex Carrol, Karl Kalbfleisch, Les Slocum, Lee Bassett, Jack Writer, George Keller and Ashton Brown.

There was a break in the freshman class activities until the beginning of the second term. We soon got back in stride by defeating the sophomore basketball team. The freshman team, comprised of three varsity players, Ritchie Howard, Walt Kolodne, and Andy Freeland, also included Pete Groop, Jack Dillon, Halsey Griswold and Don Kolodne. In the game for the school championship the seniors defeated the freshmen by a narrow margin as a result of the upperclassmen's last minute scoring spree.

Now, as the year is drawing to a close, we feel sure that the Class of 1951 has made a fine showing of itself in becoming a part of Tech.

Fraternities

INTERFRATERNITY
BALL

INTERFRATERNITY

Christmas Ball

The annual Interfraternity Ball is the highlight of Tech's social season. The full weekend including the dance, the Tech-Norwich basketball game with Round Robin dancing afterward, and various other activities at the fraternity houses made this year's ball an occasion long to be remembered. It was Christmas Formal time when all the lovely young damsels were welcomed to the Hill for a pleasant weekend and a Merry Christmas.

The dance committee was composed of regular members of the Interfraternity Council with Jack Saunier in charge.

Chaperons were Dean and Mrs. Jerome W. Howe, Dr. and Mrs. Leland L. Atwood, and Dr. and Mrs. Ernest D. Wilson.

Perhaps many will remember the "Tetch News" announcing the Interfraternity Race with the Mares and Fillies in the annual get-together.

INTER-FRATERNITY COUNCIL

The Interfraternity Council at W. P. I. was organized in 1911 and became a member of the National Interfraternity Council four years later. The purpose of this body at Tech is to achieve closer relationships among the chapters and between the chapters and the faculty. The Council meets once each month at one of the chapter houses. At such meetings the delegates, assisted by two members of the faculty, formulate policies on rushing, scholarship, and sports. Each house sends one appointed delegate to each meeting and may also send one alternate.

The good rushing program at Tech is made possible by the Interfraternity Council which sets up all rushing rules. The Council also sees that these rules are adhered to by both fraternities and freshmen. These rules are issued in the form of pamphlets and distributed to the freshmen at the beginning of the year. A pamphlet with a brief description of each fraternity on the "Hill" is also edited by the Council and sent to freshmen before their arrival at Tech. Before Rush Week begins, fraternity men are allowed to visit freshmen in the dormitory during certain specified periods. In this way, freshmen have a chance to meet fraternity men and consequently gain an idea of fraternities before being thrown into the turmoil of Rush Week. On completion of

Rush Week, during which the freshmen visit the houses, pledging takes place. The Interfraternity Council does everything in its power to help the frosh see fraternity life in its true light.

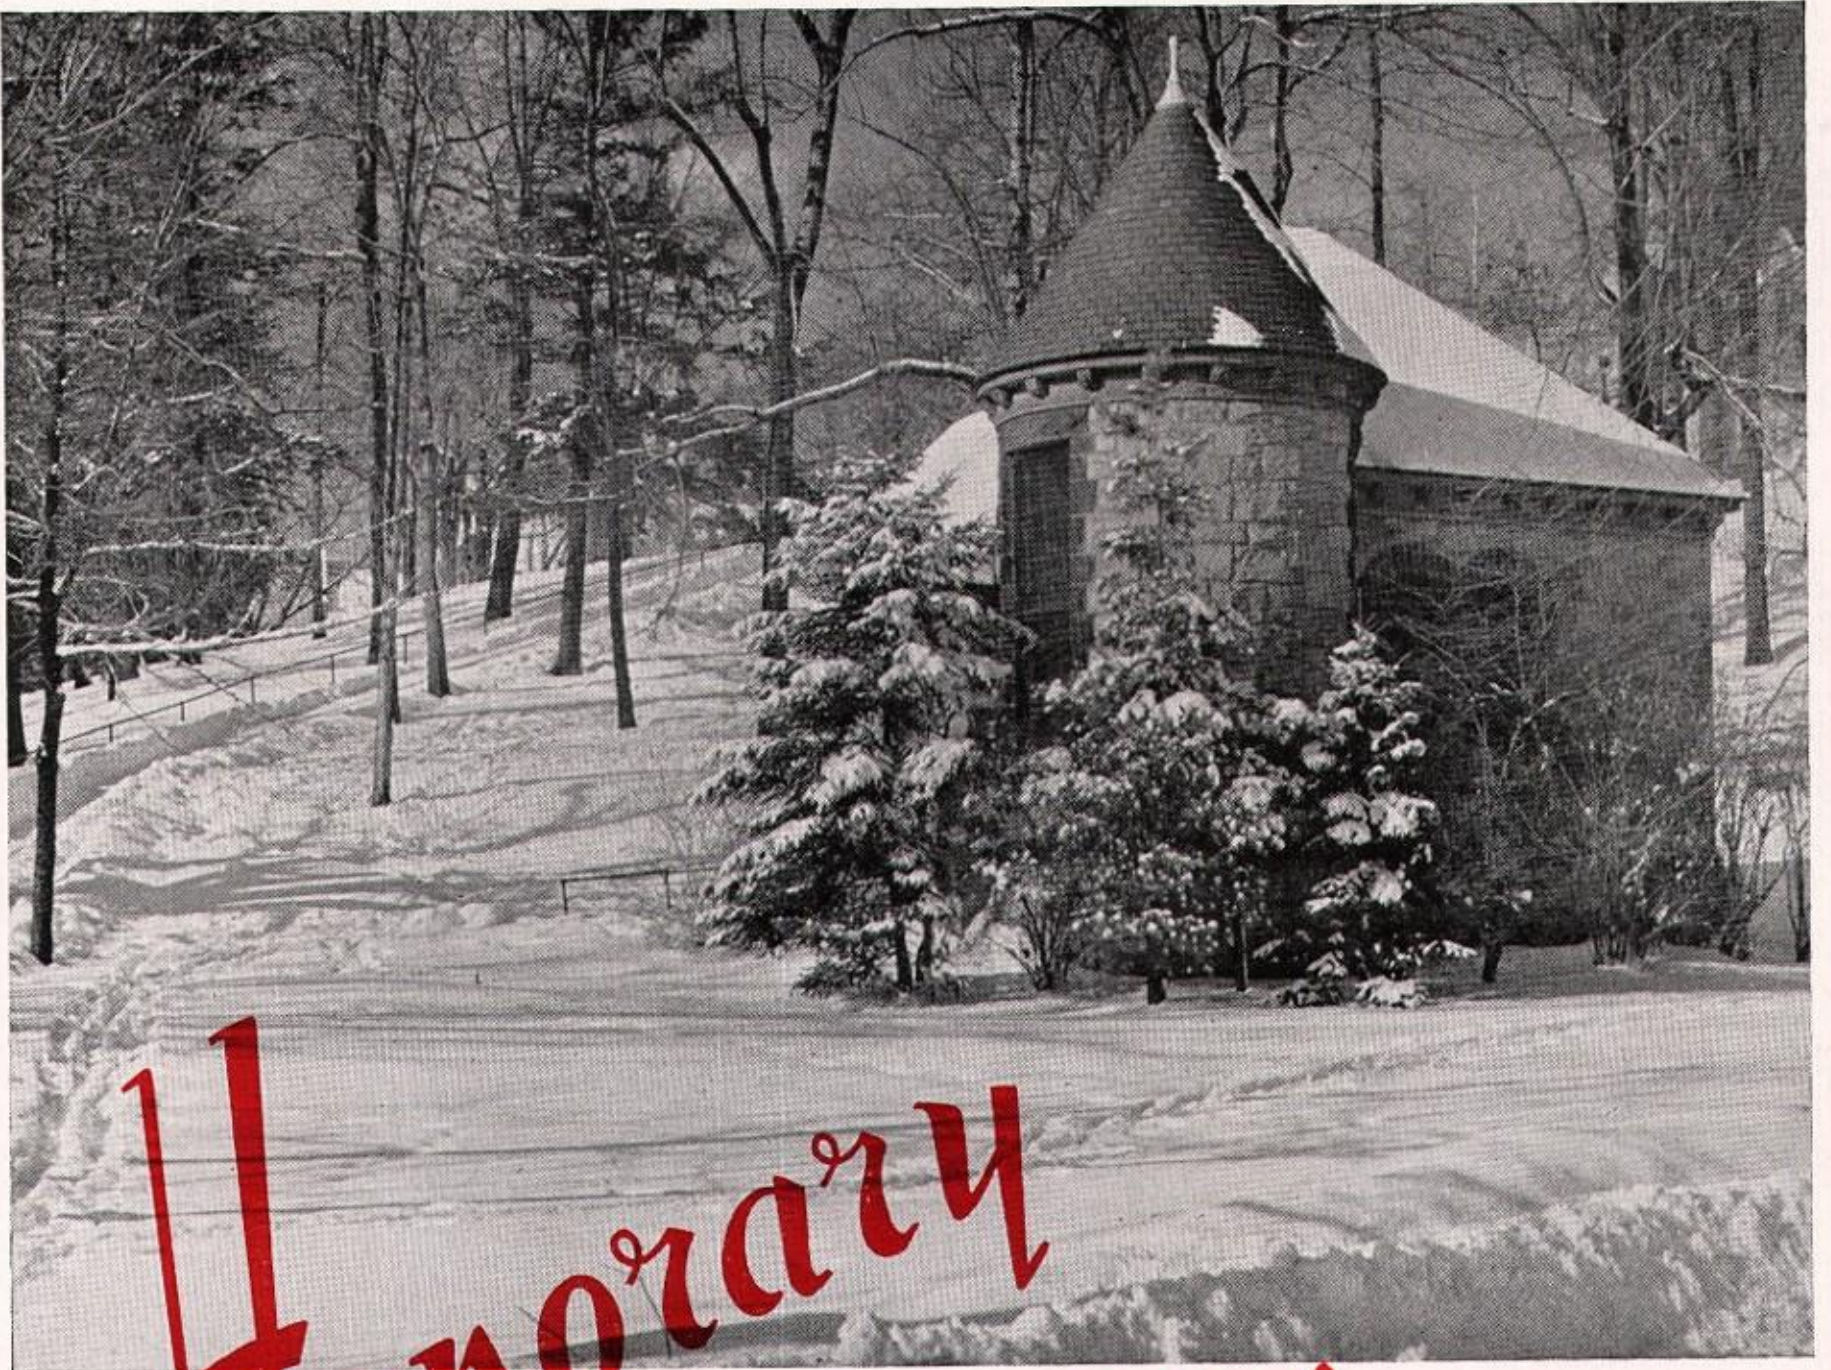

As a culmination of rushing the Interfraternity Council sponsors the Interfraternity Ball, the high point of the social season at Tech. This year, as usual, Alden Auditorium was filled to capacity as the couples danced to the music of Al Gentile and his orchestra. On the following night after the basketball game the Round Robin was held which ended the program of activities of another successful Interfraternity Weekend.

The efficiency of the Interfraternity Council is due largely to the work of Professor Claude Scheifley, chairman of the Council. He succeeded Professor Gay last year when the latter passed away ending several years of successful leadership in the Council.

Since fraternities play such an important part in Tech life, and the Interfraternity Council is the governing body of these fraternities, its position is one of great importance to the school. Due to mutual agreements made at Council meetings, the fraternities have upheld their high standards throughout the years.

Honorary Societies

SKULL

Skull is the senior honorary society of the Worcester Polytechnic Institute. It was founded in 1911 with the twofold purpose of stimulating interest in extra-curricular activities and furthering school spirit. Since then the society, composed of a small group of seniors, has exerted a great influence on student activities, not only directly through the personal affiliations of its members, but also by such means as regulating interclass activities and promoting student rallies.

Membership in Skull is limited to those few men who are outstanding in ability and have demonstrated their interest in the school and its betterment. They are selected each Spring at a special tapping ceremony held during one of the regular student assemblies. The black-robed members descend from the stage, and one by one they circulate slowly through the audience. Then the mounting suspense is suddenly broken as the member strikes his choice resoundingly on the shoulder after which the honored man is led to the platform and presented a pledge pin by the president of Skull. In like manner the remaining initiates are selected. Several members of the faculty have been initiated into the society, and included among them are: Admiral Wat Tyler Cluverius, Dean Francis W. Roys, Dr. Albert J. Schweiger, Professor Donald G. Downing, Professor M. Lawrence Price, Professor Edwin Higginbottom, Professor Arthur J. Knight, Professor Carl Johnson, Professor Hobart Newell, and Dr. Ernest D. Wilson.

Every year, as one of its functions, Skull presents a trophy to the freshman who in their opinion has done the most for the Institute. So honored in the Class of 1950 was John Brierly, who became the twenty-third to have his name inscribed on the cup.

It is the goal of every freshman, from his first days at the Institute, to be deemed worthy to wear the gold pin and white cap that marks a Skull man.

*First Row, left to right: F. Holby, R. Moltenbrey, C. Rehrig, J. Concordia, J. McKernan, R. Horne, R. Adams, R. Tracy, C. Hellig.
Second Row, left to right: A. Raymond, J. Meade, R. Turner, A. Riley, R. Seagrave, A. Collins, P. Evans, H. Dember.*

T A U B E T A P I

First Row, left to right: A. Collins, F. Dieterle, R. Nowell, R. Tracy, S. Cocks. Second Row, left to right: M. Ferson, J. O'Reagan, H. Guerci, A. Pike, W. Wachter. Third Row, left to right: G. Kulin, W. Shafer, W. Beers, A. Deloid, J. Juselis, M. Underwood.

Tau Beta Pi was founded at Lehigh University in 1885, and a quarter of a century later, in 1910, the local chapter was organized. Its purpose is to recognize those who have brought honor to their Alma Mater by distinguished scholarship and commendable character as undergraduates in engineering colleges, or by their personal accomplishments as alumni. Over fifty chapters of Tau Beta Pi, established in the leading technical colleges of our country, form the largest honorary fraternity for undergraduate engineers.

Membership in this society is open to Seniors in the upper fifth, and Juniors in the upper

eighth of their classes. Elections for membership are held twice yearly; one in the fall and the other in the spring.

The results of the fall elections were announced on November 12, and twelve men were initiated into the organization. Of these twelve, nine were Seniors and three were Juniors.

Those nominated from the Class of 1948 were: William A. Beers, Harold B. Guerci, Vincent P. Juselis, Gershon Kulin, Arthur L. Pike, Per Roed, Wayne A. Shafer, Jr., Albert H. Soloway, and Wilfred J. Wachter.

From the Junior class the three men chosen were Albert R. Deloid, Jr., Malcolm E. Ferson, and James F. O'Regan.

The officers for the past year were: President, Robert Nowell; Vice-President, Richard Tracy; Secretary, Samuel Cocks; Treasurer, Robert Dieterle; Corresponding Secretary, Romeo Ventres.

The annual banquet was held in the latter part of November. Professor H. H. Newell of the Electrical Engineering Department was the principal speaker.

Sigma Xi

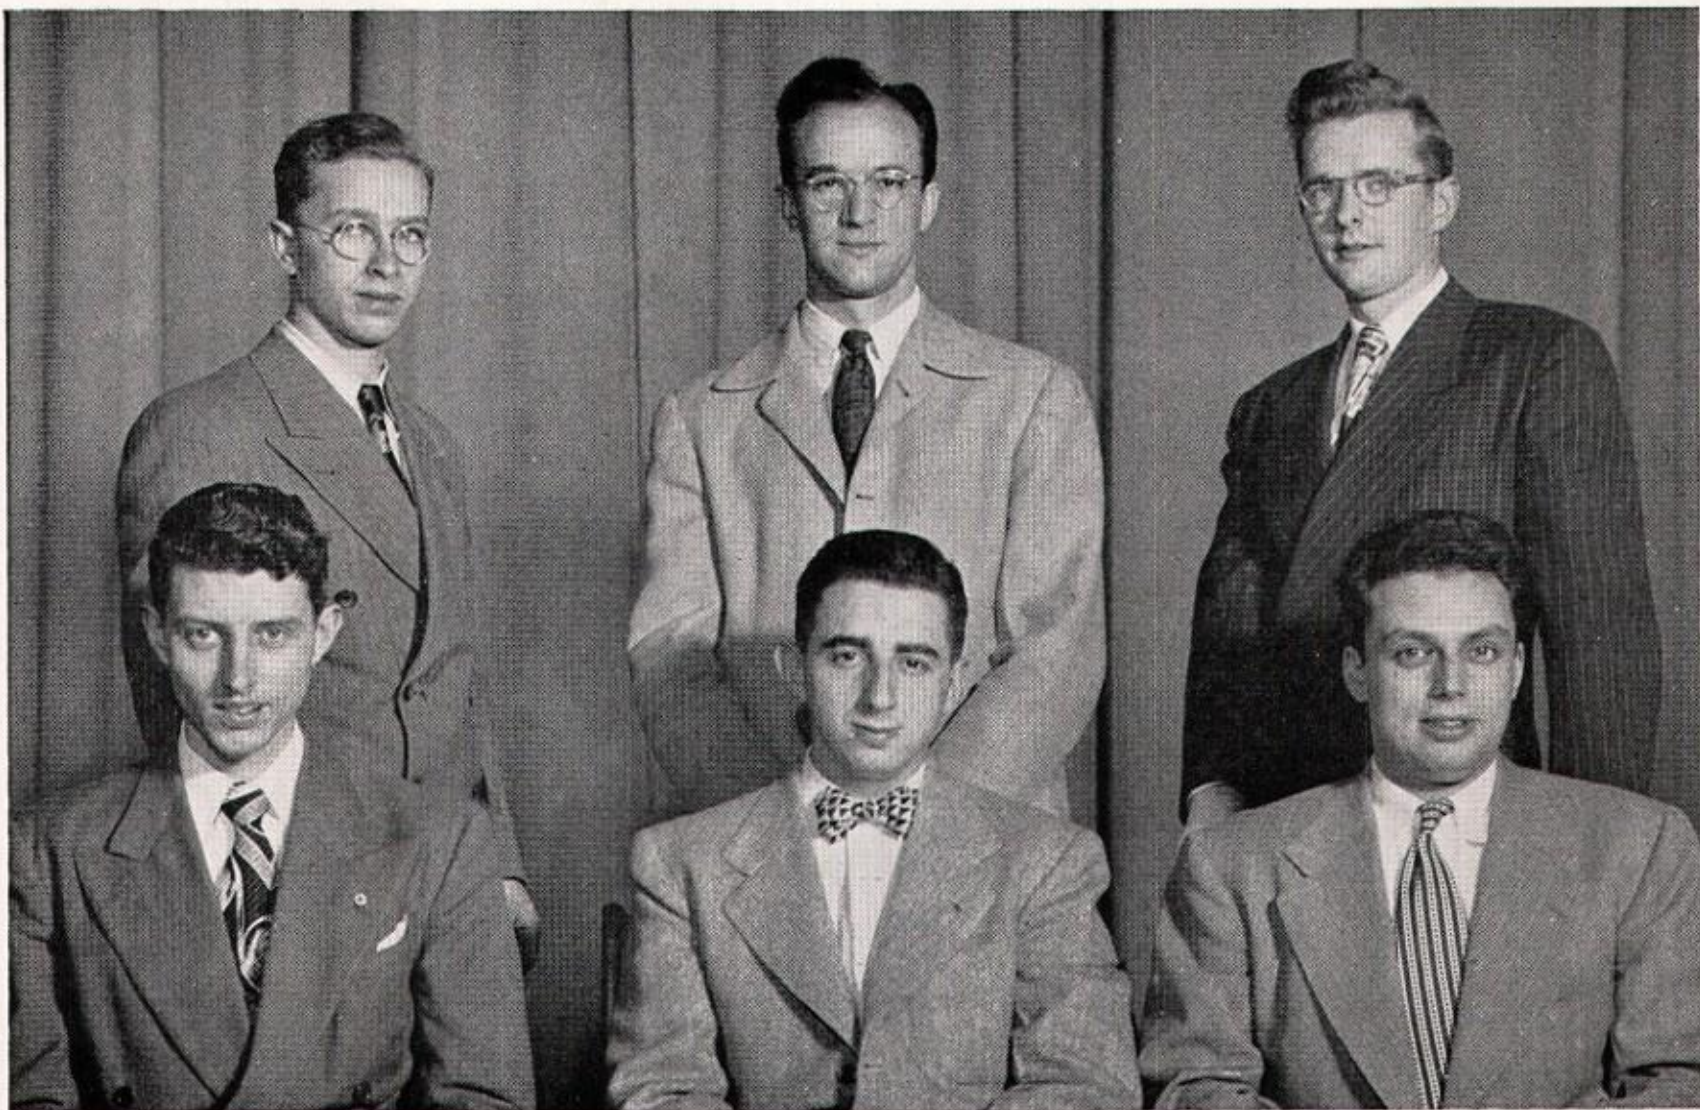

The honorary engineering Society Sigma Xi was founded at Cornell University for the purpose of stimulating research in the various branches of the field of engineering. Since its founding, sixty-two years ago, the society has steadily grown until it can now claim well over twenty thousand members. Most of its full members are men of considerable importance in their occupational fields.

The Sigma Xi chapter at Tech was chartered in 1909, and since then it has functioned continually as an active chapter of the national organization. During the past year, the majority of the society's meetings have been chiefly concerned with scientific subjects of current importance. Meetings which are high-lighted by lectures of great general interest are frequently attended by engineers from the industrial field and non-member students at the Institute.

Each year, men from the Senior Class who have been deemed eligible are pledged into the ranks of Sigma Xi, which, as one of the foremost honorary engineering societies, maintains a high standard of selectivity. Acceptance into the society entitles the pledges to an associate membership, and they continue as associate members until by performing actual research, they become eligible for full membership.

The selection of new men to be pledged to Sigma Xi is based on their high scholastic standing in their class and on their ability to carry on research work.

*First Row, left to right: K. Scott, G. Kulin, L. Bressack.
Second Row, left to right: R. Lerner, H. Guerri, R. Nowell.*

Pi Delta Epsilon

First Row, left to right: J. Petrillo, A. Riley, B. Gorgan, E. Eager, R. Moltenbrey, M. Gordon. Second Row, left to right: R. Tracy, N. Jardine, D. Hall, R. Meade, P. Evans.

Pi Delta Epsilon is the newest arrival among the honorary societies on the W. P. I. campus. It was installed this year after the groundwork was laid by the members of the Class of '47. Pi Delta Epsilon is a national honorary collegiate journalism fraternity, pledged to the promotion of student participation in undergraduate publications.

There is equal representation in the local chapter of Pi Delta Epsilon from both the *PEDDLER* and the *Tech News* which comprise the two undergraduate publications. Membership is open to anyone with at least one year's service on the staff of the recognized college publications with a staff position equivalent to a Departmental or Associate Editorship or an Assistant Business Managership.

It is the purpose of the Pi Delta Epsilon to elevate the cause of journalism, to foster the

mutual welfare of student publications, to encourage loyalty to their Alma Mater, and to award the journalists working on the student publications for their efforts, services, and accomplishments by admission to its membership.

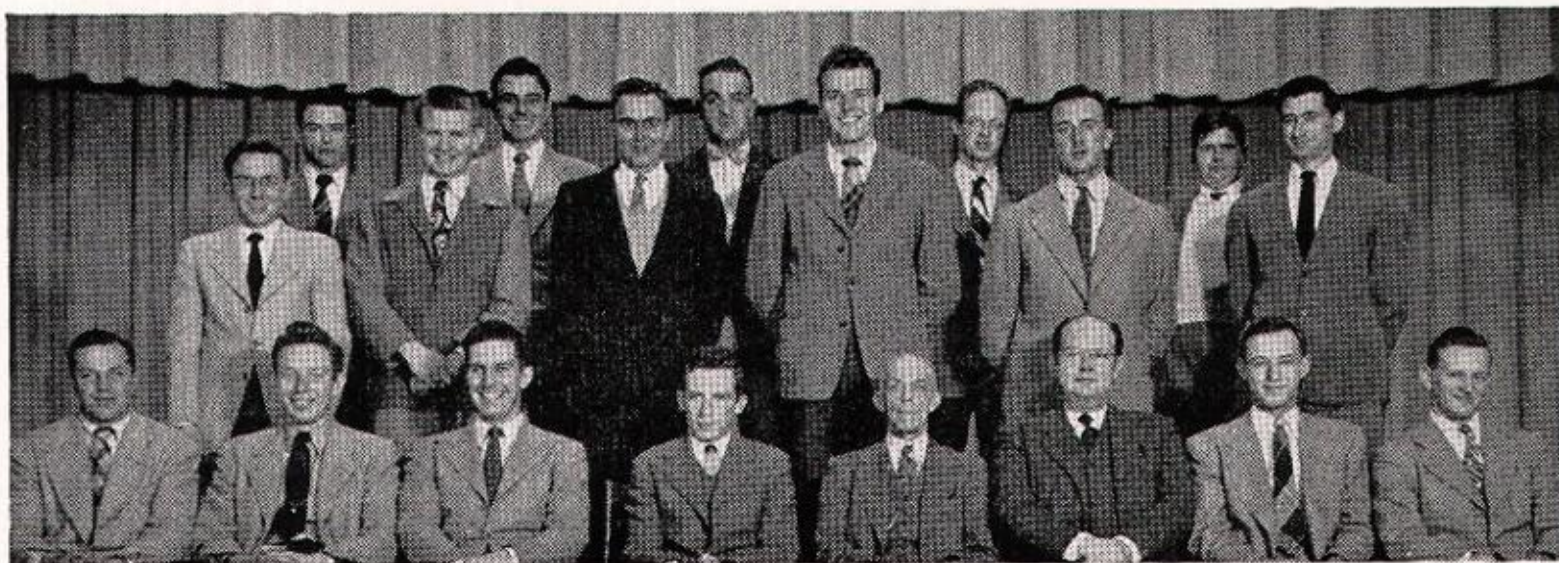

The chapter is a clearing house for the problems of all publications on the campus. Meetings are devoted to considerations of possible disputes between staffs over advertising rivalries; to constructive criticism of the publications; to suggestions for improvement in financials control; and to establishment of rules to assure fair staff elections.

Ed Eager was elected Chapter President and Salvatore Intagliata, the Secretary-Treasurer last fall. Mr. Grogan is the Faculty Adviser. Professor Schwieger, head of the Economics Department, and a member of Pi Delta Epsilon from his student days, was of great assistance in the founding of this new chapter.

Activities

T E C H C O U N C I L

First Row, left to right: K. Muccino, R. Atherton, W. Keyl, A. Raymond, Professor Rice, Professor Downing, R. Horne, M. Ferson. Second Row, left to right: R. Tracy, A. Riley, W. Applegate, M. Nelson, B. Lund, E. Dion. Third Row, left to right: J. Mullarkey, J. Peepas, J. Macy, D. Flood, E. Eager.

The Tech Council is one of the most important organizations on the Hill. Its object as stated in its constitution, is, . . . "to further the interests of the Institute in all possible ways." To achieve this goal the Council functions as a connecting link between the students and the faculty, and acts as a guiding body in regard to many student activities.

The membership of the Council is divided into two classes, ex-officio and elective. The ex-officio members are the President of the Institute, and the Presidents of the classes, clubs, and other organizations on the Hill. The elective members consist of two faculty advisers, Professor Rice and Professor Downing, and nine undergraduates—two from each class plus the President of the Council elected from the Senior class by the student body.

The duties of the Tech Council include supervising class elections, enforcing the student eligibility code, and overseeing the

Freshman-Sophomore Goat's Head rivalry. This year, the Council has proposed elevating the President of each recognized organization to full membership. This proposal must be voted on by the student body before it can become effective. A revision of the Cheer Leading system has been under discussion in order to improve student response at athletic events. With an eye toward next year, the Council considered a revival of some sort of Freshman indoctrination period and the revision of the Tech Council constitution.

Through out the school year, any problems or questions, that the students may have, are brought up at meetings and passed on to the administration if this action is deemed necessary. Thus the Tech Council, by cooperation and unified action on the part of a combination of faculty and students, promotes a spirit of unity and good-will among the classes and between the students and faculty.

Peddler

This year's PEDDLER is the latest of a long line of class books, which started back in 1884 when the "Antenna" was published. It has been called the PEDDLER since 1928, when it took the name in honor of John Boynton, the well-known tin peddler,

With the higher cost of printing a yearbook staring the staff in the face, work was begun on the 1948 PEDDLER. We had the typical class book problems to encounter, but they were new and difficult to us.

Under the guidance of Editor-in-Chief, Ed Eager and our faculty adviser, Professor Schweiger, the staff had some early fall meetings. Ideas slowly started to materialize into workable plans, and we were on the way.

Although selling advertising space in a college yearbook isn't the easiest type of job, Al Riley the advertising manager and his senior assistants Don Hall, and Jack Meade, sold more ads than ever before in the history of the school. Meanwhile the job of selling the book to the students was being planned under the direction of Sal Intagliata and his aides.

The rest of the Senior staff was busy also. John Petrillo in charge of group write-ups; Lou Block handling the individual Senior write-ups; and Norm Jardine, the photography editor, scheduling individual and group pictures with the class photographer.

Much of the credit goes to the Junior staff and the Sophomore competitors who helped compile the book by chasing ads, soliciting subscriptions, and group write-ups. Although the PEDDLER is primarily a Senior Class book, much of the editorial work is done by underclassmen, and it is the best of these men who are chosen to handle their own yearbook.

Keyl, B. Kuprewicz, J. Adams, W. Dick.

T E C H N E W S

The *Tech News* Association was organized by a group of students in 1910, and is an outgrowth of the *W. P. I. Weekly*. The paper has functioned almost continually since that time and has faithfully reported the social, athletic, and scholastic events of the school. It is published bi-weekly during the college year by a student staff and is available to all students. It is also published for circulation on such special occasions as the college Formal dances.

The *Tech News* is a member of both the Inter-collegiate Press and the Associated Collegiate Press, which are agencies composed of the leading college newspapers in the country. Both of these organizations offer merit ratings, helpful criticisms, and articles of feature importance in their scope. The *Tech News* has been rated highly in the last few years by these two groups.

The editorial and business staffs of the paper have done an exceptionally competent job this year in presenting accurate and unbiased material. There have been several excellent editorials discussing matters pertinent to aspiring engineers, and many merited praises and helpful criticisms have been presented concerning both

public and school affairs. At the same time an opportunity has been given for the students to express their views on various campus functions and policies. One column entitled "Campus Quotes" consists of a variety of student opinions upon subjects of popular current interest. There are also features offering such things as comments on the latest music records, bits of Fraternity news, and incidents of interest in the Student Wives Club. With each copy of the *Tech News* is included an issue of the *Collegiate Digest*, which is a pictorial representation of campus activities throughout the country.

The Editor-in-Chief for the past school year has been Richard Tracy. The Managing Editor was Ronald Moltenbrey, the Feature Editor, John Saunier, Secretary, John Meade, News Editor, Paul Evans, and the Sports Editor, Louis Block. The Business Manager was Alfred Letourneau. These men and their supporting staffs have made a ceaseless effort to maintain and improve the high standards set by their predecessors. This is especially commendable since all the work must be done in extra time.

First Row, left to right: R. Bedard, F. Pease, F. Jurczak, J. Meade, R. Moltenbrey, R. Tracy, A. Letourneau, M. Gordon, A. Feeney, F. Kearney, W. Dennen. Second Row, left to right: S. Muthiah, R. Brandoli, J. Brierly, R. Bachand, M. Sanborn, H. Robinson, W. Julian, P. Dreier, J. Lemire. Third Row, left to right: L. Borst, W. Wachter, R. Van Amburgh, F. Bigda, B. Kuprewicz, W. Griggs, N. Brown, A. Boyd.

The Masque

First Row, left to right: J. P. Burgarella, J. J. Burgarella, R. Bedard, A. Riley, W. Julian, S. Intagliata, R. Van Amburgh, A. Feeney, N. Crowley, W. Dennen, H. Robinson. Second Row, left to right: E. Eager, R. Staples, H. Jacobs, J. Peepas, F. Bigda, W. Scanlon, S. Leonard, W. Dick, H. DeCarli.

The Masque turned in a sterling performance again this year. This year's effort, under the able direction of Mr. Charles P. Rugg, was presented on the weekend of the Junior Prom to a capacity audience which was thrilled from the start by a thoroughly competent and inspired cast.

The play, "Ten Little Indians" by Agatha Christie, is a mystery play in three acts, which is filled with violent and sudden deaths for the characters involved. The play opens at a dinner party in a weird country house on an island off the coast of Devon. Ten persons are present, eight guests and two servants, and in the background are ten statuettes of the ten little Indians. Embossed above the statuettes is the short

verse which tells how each of the ten Indians met death. A voice which seems to come out of the air accuses each of the ten people present of being responsible for the death of some person with whom they have been associated in the past. As each one of the ten little statuettes falls or is destroyed in some other way, one of the ten persons meets death in a very violent manner until all ten persons are dead.

In the production of the play a great deal of valuable assistance was given by the capable Faculty Adviser, Mr. E. C. Hollows.

For the past year, Salvatore Intagliata has been President with John Mullaney publicity director, Robert VanAmburgh stage manager, and William Julian business manager.

Student Christian Association

First Row, left to right: W. Shafer, C. Jones, Professor Swan, S. Spaneas, W. Dennen. Second Row, left to right: J. Peepas, G. Pano, R. Ballard, L. Block, D. Weikman, W. Land.

The Student Christian Association, with the advent of its coffee shop in the Sanford-Riley Hall commons, has finally become a publicized student group. Until the inception of the coffee shop, the S. C. A. had been an unheralded work-dog among student activities.

Each year the S. C. A. sponsors a week of freshman orientation. The traditional Tech "Bibles" and desk blotters were distributed on the first Friday evening of the school year at the general student body rally. The annual Tech Carnival was one of the most successful Carnivals produced in recent years. Honors for the best skit went to the Class of '50.

Other continuous functions of the organization consisted of maintaining the Sanford-Riley Hall billiard room, providing magazine subscriptions for the Commons, operating the student and student-wives employment bureau, weekly assemblies, and supporting such worthy organizations as the American Red Cross, the World Student Service Fund, and the Student Christian Movement.

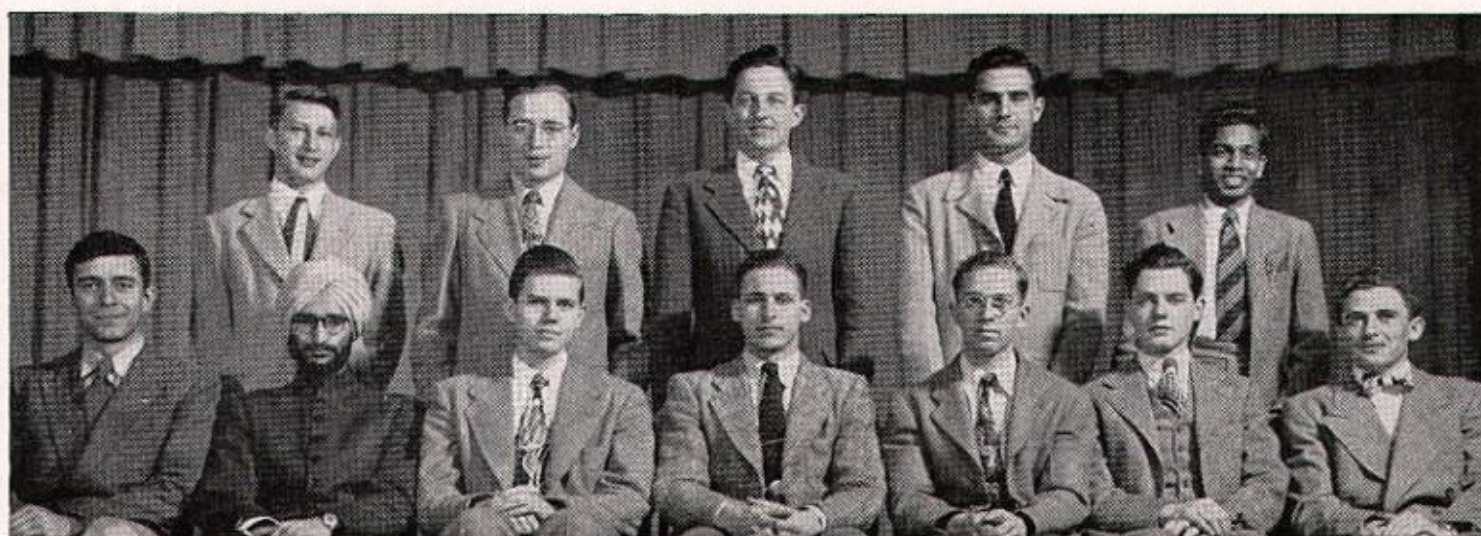

The Student Christian Association cabinet is composed of nine fraternity delegates, one dormitory representative, and one delegate-at-large, with Professor Paul R. Swan acting as adviser and permanent treasurer.

NEWMAN CLUB: *First Row, left to right:* T. Hess, Professor Longwell, Dr. Butler, Mr. Gagliardo, Mr. Grogan, J. O'Regan, F. Bigda, S. Intagliata, T. Carlin, W. Julian, N. Crowley, A. Feeney, V. Juselis, J. Coyne, P. Evans. *Second Row, left to right:* H. DeCarli, F. Kearney, T. Coonan, R. Bachand, J. Hudson, E. Luiz, G. McCormick, T. Stack, R. LaRocque, R. Blanchet, R. Brandoli, J. J. Burgarella, J. P. Burgarella, E. Hennessey, R. Remillard, L. Lemere. *Third Row, left to right:* J. Lemire, H. Robinson, W. Dick, L. Lynch, G. Atkinson, R. Girard, C. Bouchard, G. Barna, B. Kuprewicz, J. O'Neil, W. Dennen, J. Gallagher, R. Ferrari, R. Tracy. *Fourth Row, left to right:* A. Tasso, E. Kacmarcik, E. Powers, W. Beers, R. Coughlin, W. Horney, R. Van Amburgh, P. Brown, A. Andersen, R. Coffey, A. Letourneau, R. Bedard, R. Beauregard, J. Petrillo.

Membership for the past year hit an all time high in the Newman Club. Social and religious activities, outside of the regular monthly meetings, included a convocational Mass and benediction held on the first day of classes and participation in the New England Federation Convention. Also, in the Fall, a dance was held in conjunction with the Newman Club of Framingham State Teachers College at Framingham. The annual Communion Breakfast was scheduled during the second term and took place at the Hotel Sheraton.

Father Henry Brabson, of the Immaculate Conception Church, is chaplain of the club, and Dr. Frederick R. Butler is adviser. The officers during the past year were as follows: Sal Intagliata, President; Francis Bigda, Vice-President; Tom Carlin, Secretary-Treasurer.

DEBATING SOCIETY: *First Row, left to right:* B. Wachter, T. Chadda, H. Oletz, P. Kahn, B. Lerner, H. Picard, S. Ruhman. *Second Row, left to right:* J. Dean, M. Nisenoff, C. Bouchard, S. Spaneas, S. Muthiah.

The Tech Debating Society was formed in 1938 under the guidance of Professor Swan to satisfy a much needed outlet for the budding elocutionists on the Hill. It suffered greatly in number and activity during the war years but the past year has seen it come into increasing prominence, and it has now a roster of over twenty members, the largest ever.

This year the Worcester Inter-Collegiate Debating Tournament was again held. Holy Cross was highly favored to win after three consecutive wins in previous years. The Boynton Hillers, however, would not ac-

knowledge defeat so easily and put in a tremendous amount of work in the preparation of their debates. All this conscientious labor was rewarded with ultimate victory over Holy Cross in the deciding debate. This brought home the trophy that the Society had been competing for with such persistence during the past few years.

The officers of this ever expanding organization for the present academic year were: President, Henry Oletz; Manager, Bob Lerner; Secretary-Treasurer, Peter Kahn; Assistant Manager, Tej Chaddha; Publicity, John Meade; Faculty Adviser, Mr. Clarkson.

GLEE CLUB: *First Row, left to right:* C. Selwitz, B. Goh, L. Gray, W. Dick, J. Ebbs, T. Hunter, D. Swanson, Mr. Green, W. Land, A. Pike, M. Sanborn, P. Stevens, S. Intagliata, D. Jordan, R. Padgett. *Second Row, left to right:* M. Nelson, W. Ritchie, H. Robinson, B. Cambell, R. Brandoli, J. Skidmore, I. Goodchild, R. Smith, S. Leonard, A. Nied, J. Taylor, E. Saling, R. Carlson, A. Hardaker, B. Halsey. *Third Row, left to right:* R. Nutt, J. Beckwith, N. Fishman, J. Logan, W. Applegate, C. Johnson, P. Cummings, W. Griggs, E. Peterson, N. Whitaker, T. McComiskey, D. Brumback, S. Mackay, R. Zimmerer, H. Howell. *Fourth Row, left to right:* A. Wheeler, R. McMahan, R. Nowell, K. Mayo, D. Lewis, R. Drew, B. Keeler, D. Danielson, H. Rienstra, F. McPherson, A. Fisher, F. Holby.

Starting with a large nucleus from last year's membership, the ranks of the Tech Glee Club have been swelled by the joining of about forty freshmen and upperclassmen. Under the able directorship of Mr. Clifford Green, the club was welded into a group of fine performers, as has been borne out by their concerts and numerous assembly offerings.

The Glee Club opened this season with a concert on December 6th at the Hopedale Community House, and in mid-January they sponsored another, singing with the girls from Becker Junior College at Alden Memorial Hall. Later, in the early part of April, the club was the guest of the Colby Junior College at New London, New Hampshire, where another successful joint concert was performed. Later in the month, the girls from Colby

visited Worcester for a return concert at Alden. The last concert of the year was a return invitation by the girls of Becker Junior College, held at the Horticultural Hall here in Worcester. The season has proved extremely successful, as judged by the popularity with which the Glee Club has been received, both here and elsewhere.

The Glee Club's Octet, well known and appreciated everywhere it has performed, not only sang during scheduled concerts, but gave many of its own programs. Long known for its barbershop quartet type of songs, the Octet more than fulfilled expectations this year.

Glee Club officers for this year were: William Land, President; Arthur Pike, Vice-President; Donald Swanson, Secretary; John Snyder, Librarian; and Malcolm Sanborn, Assistant Librarian.

THE BOYNTONIANS

Worcester Tech's ambitious thirteen student swing band has recorded one of its most successful seasons in years. The demands for appearances at numerous high school and prep school proms and dances are proof of their excellence and popularity, which they have labored ardently to develop. The smoothness and ease with which the band offers enjoyable entertainment, characterized by exceptionally fine arrangements and smart solos, certainly are manifestations that the boys have mastered that "Know-How."

The band appeared at one of the school assemblies, as well as the traditional basketball post-game dances.

Although the Boyntonians have reached a new peak they expect to uphold and continue the splendid record of their past performances, in the coming season. As

must happen in every class a few key men will be graduated. The organization, however, consists of just about the same number of men from each of the four classes.

The boys have made several recordings. These eliminate the necessity of the whole band being present at auditions. Success in cutting these disks has lead to speculative plans for making records commercially. With success in this field the band might easily become the most famous organization on the Hill. Because of union threats, this transaction may be speeded along.

As a group they are one of the most active and outstanding on the Hill. They are an asset to the whole school, and can well be proud for doing their bit in sustaining and perpetuating the fame and spirit of our Alma Mater, Worcester Tech.

COSMOPOLITAN CLUB: *First Row, left to right:* P. Kahn, J. Slonczewski, T. Mei, Professor Schiefley, B. Lund, S. Muthiah, T. Chadda, P. Roed, F. Gammons. *Second Row, left to right:* Y. Yang, S. Ruhman, V. Chun, J. Lee, S. Temel, N. Ergul, M. Ozbas, B. Goh. *Third Row, left to right:* H. Picard, A. Tasso, R. Oletz, R. Khoylian, A. Renasco, A. Devletoglou, M. Sonmez, M. Oray.

"Humanity Above All Nations". With this motto before it, the Cosmopolitan Club started on its 39th year of existence. As a welcome sign of increased activity this year, the number of meetings have been increased from once a month, to once a fortnight. One meeting is held with an outside speaker, while the other one is an informal one with discussions and talks by members themselves.

Amongst the forty members are twenty-three from abroad. The countries represented being China, India, Norway, Turkey, Brazil, British Honduras, Ceylon, Cuba, Egypt, Greece, Iran, Lebanon and Malaya. The

rest of the members are from the United States of America. There seems, however, a belief that the Cosmopolitan Club is meant only for foreign students. This is absolutely wrong, and membership is open to all people interested in International Affairs, and in countries other than their own.

Election of officers were held at the last meeting of the academic year, 1946-1947, and the following officers were elected: Birg Lund of Norway, President; Subbiah Muthiah of Ceylon, Vice-President; Tejinder Singh Chaddha of India, Secretary; Tsu Yen Mei of China, Treasurer.

NAUTICAL ASSOCIATION: *First Row, left to right:* K. Berggren, D. Flood, J. Beckwith, Professor Brown, W. Beckwith. *Second Row, left to right:* B. Hawley, R. Cushman, R. Sinn, D. Covill, R. Miller.

The Nautical Association had its beginning in 1936 when a group of Tech students got together and formed an informal club for sailing enthusiasts. For the next two years this club was one of the most exclusive organizations on the campus, admitting only a few new members each term. In 1939 the club received official recognition from the school and took its place with the other active organizations on the Hill. The club grew in size and began entering meets in competition with New England colleges.

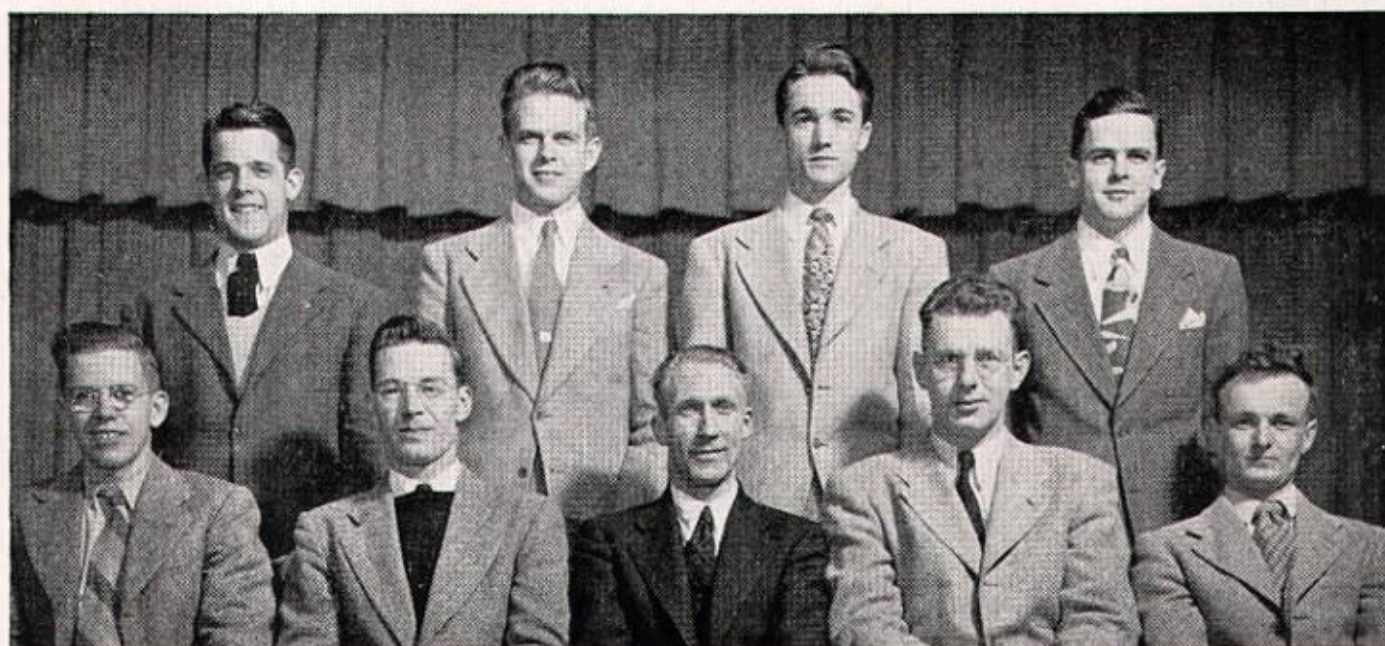

The lack of boats and facilities for practice have always been a great handicap. This situation was relieved to a certain extent when the club obtained its

own boat which it now retains at Indian Lake.

The Nautical Association is now a full member of the Inter-Collegiate Yacht Racing Association. It sails in competition with schools such as Coast Guard, Brown, Harvard, and M. I. T.

In addition to the regular business that is conducted at the meetings of the club, the members receive instruction in nautical matters and study racing rules. It is not unusual for the men to sail a few "dry" races at the winter meetings in preparation for the coming meets.

In the races of last year John and Walt Beckwith, along with Bob Miller, did well for the engineers against their rivals.

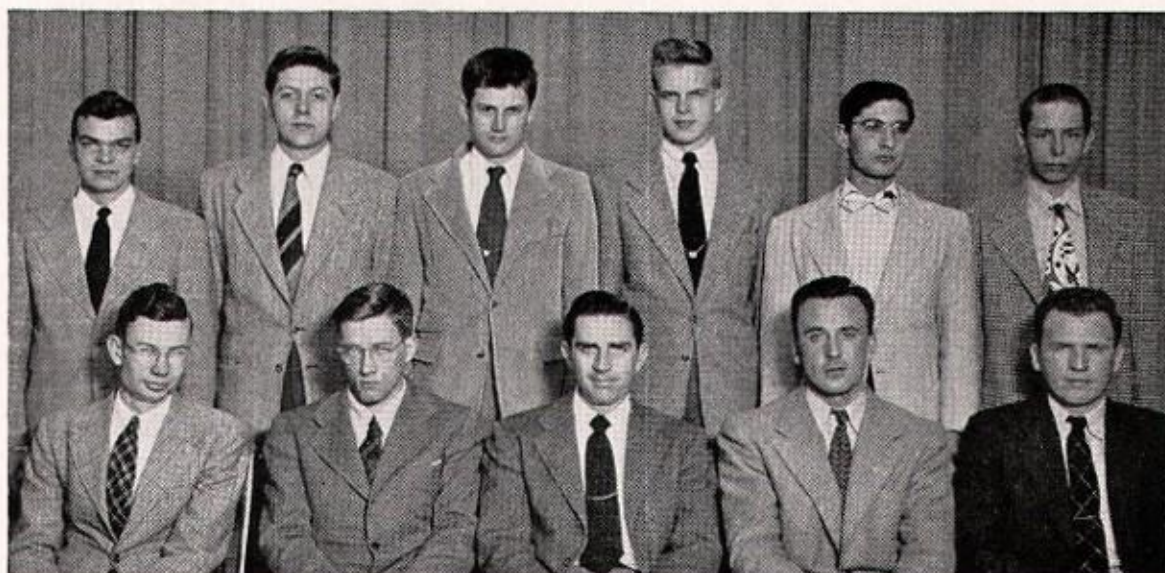

RADIO CLUB: *First Row, left to right: P. Jones, R. Smith, Mr. Howe, A. Swenson, B. Barker.*
Second Row, left to right: R. Miller, M. Hescok, A. Brown, R. Partridge.

During the first normal post-war year at the Institute, the Radio Club has surged forward with activity and progress which has long been lacking in the organization. The members have acquired some war surplus equipment, including a transmitter which they have converted for their own use. An automatic code practice oscillator has also come into being and it will be used to help all those who are interested enough in amateur radio to obtain their government licenses. One of the most outstanding talks of the year was given by a former instructor at Tech, Dr. C. A. Pierce. He spoke on radio in general but his main topic was the Radio Club at Tech from the years preceding the first World War. The members are now under the guidance of Instructor Don Howe of the Electrical Engineering Department. They have been planning and are working to be affiliated with the Amateur Radio Relay League, a strong radio amateur organization which is world-wide in scope. President Cluverious was responsible for several great additions, in that he gifted the club with enough money to buy a new communications receiver and additional tools. These contributions helped stimulate greater interest and activity in the club, and now the club is regularly on the air. A good number of the members are licensed radio amateurs, and with the progress the club is making, there should be a great many more radio enthusiasts joining the ranks.

BAND: *First Row, left to right: A. Anderson, H. DeCarli, B. Stone, B. Sundquist, D. Taylor, D. Dodge, E. George, C. Parnagian, C. Davis, D. Jordan.* *Second Row, left to right: F. Levitsky, C. Luiz, J. O'Connor, W. Shafer, J. Morgan, D. Jones, R. Waldo, R. Anderson, J. Welts, L. Bassett, Mr. Lynch.* *Third Row, left to right: H. Robinson, L. Fairbanks, L. Lentell, E. Ahlstrom, W. Lloyd, J. Taylor, P. Groop, G. Keller.*

Although the Outing Club is one of the youngest organizations on the Hill, its ten years on the campus have shown a great deal of progress. With the increased interest in skiing and the outdoor sports shown by Worcester men, the membership of the club has increased yearly.

At the beginning of the year, the following officers were elected: Donald Skeffington, President; Thomas Hodgett, Vice-President; Birger Lund, Secretary; and Norman Whitaker, Treasurer. The Outing Club is about the only group at Tech that leaped for joy when we were hit with this white winter. To add to the skiing interest here on the Hill, the members have offered to give free skiing lessons to their brother engineers.

After holding trials, a team was selected for competition against the Worcester Ski Club. Also, both Brown University and Clark University were contacted in hopes of arranging meets with teams there. All these anticipated meets had to be cancelled due to the demands of finals and the start of the second term. Although the Club did not hold any official meets, many members spent their between-term vacation and weekends at skiing resorts in New Hampshire and on near-by slopes. However, these outdoor men have planned a ski trip to Tuckerman's Ravine during the spring vacation.

Marked by a great interest in the outdoor life, the Outing Club represents the true Tech spirit that is a credit to the men who formed it.

The Camera Club, founded in 1921, has always been an active, progressive organization at Tech. Its purpose has been to promote interest in photography on the campus. The incentive displayed by its members has resulted in a series of improvements that promises to make this club one of the finest on the Hill.

The continual purchasing of new and improved photographic equipment has made the darkroom complete and up-to-date. The most recent addition was an enlarger which makes it possible for the members to improve the quality of their enlargements. Also of high caliber is the developing and printing equipment which is most essential to a well-balanced darkroom. All in all, the equipment which belongs to the club clearly illustrates the remarkable advancement of the association.

The bi-weekly meetings, which are held in the club room in Boynton Hall, serve to bring the members together for a discussion of the latest topics in photo work and for a few words of advice from some of the members who have done specialized work in the field. During the meetings, pictures taken by the members are criticised. Instructions in the various phases of photography are available to the members.

The President for the past year has been Philip Dreier, the Secretary was Leo Rose, and the Treasurer was John Beckwith. Through the efforts of these men and their staffs the Camera Club enters competitions with other members of the New England Council of Camera Clubs, with which it is affiliated.

Athletic Council

Just as in every college in the country, here at Tech the Athletic Council represents the voice of the student body in the athletic affairs of the "Boynton Hill Engineers."

At the end of each school year, the President of the Council is elected from the coming Senior Class. At the same time the Vice-President and Treasurer are elected from the Junior Class, and the Secretary from the Sophomore Class. The aforementioned officers, together with three members of the faculty, two alumni members and one student appointed annually by the President of the Institute, constitute the Athletic Council.

The Athletic Council has general charge of athletics at the Institute. Its Constitution states, that it has the power to dismiss any unsuitable captain or manager; that it shall distribute the funds for athletics; that it shall award insignia, and that it shall have full power pertaining to the promotion and regulation of athletics.

The members of the Council for the academic year 1947-1948 were: A. E. Riley, President; G. Santandrea, Vice-President; H. Melden, Treasurer; J. George, Secretary; R. Horne, Member-at-Large; Professors Carpenter, Knight, and Higginbottom, Faculty; and Mr. A. Rankin and Mr. D. E. Smith, Alumni.

Three meetings of the Council are held yearly and as usual the present Council has carried out its functions very ably.

The first meeting was held on June 9, 1947. At this meeting awards of insignia for Tennis, Baseball, Track, Sailing, Bowling, Rifle, Swimming, and Basketball were made. However, the most important result of this meeting was the modification in the rules governing the awarding of letters in certain sports. The sports which fell into this category were Football, Soccer, Basketball, Track, Tennis, and Swimming.

A special meeting was called on October 8, 1947, for the election of men to fill managerial positions in Soccer, Cross-Country, and Football.

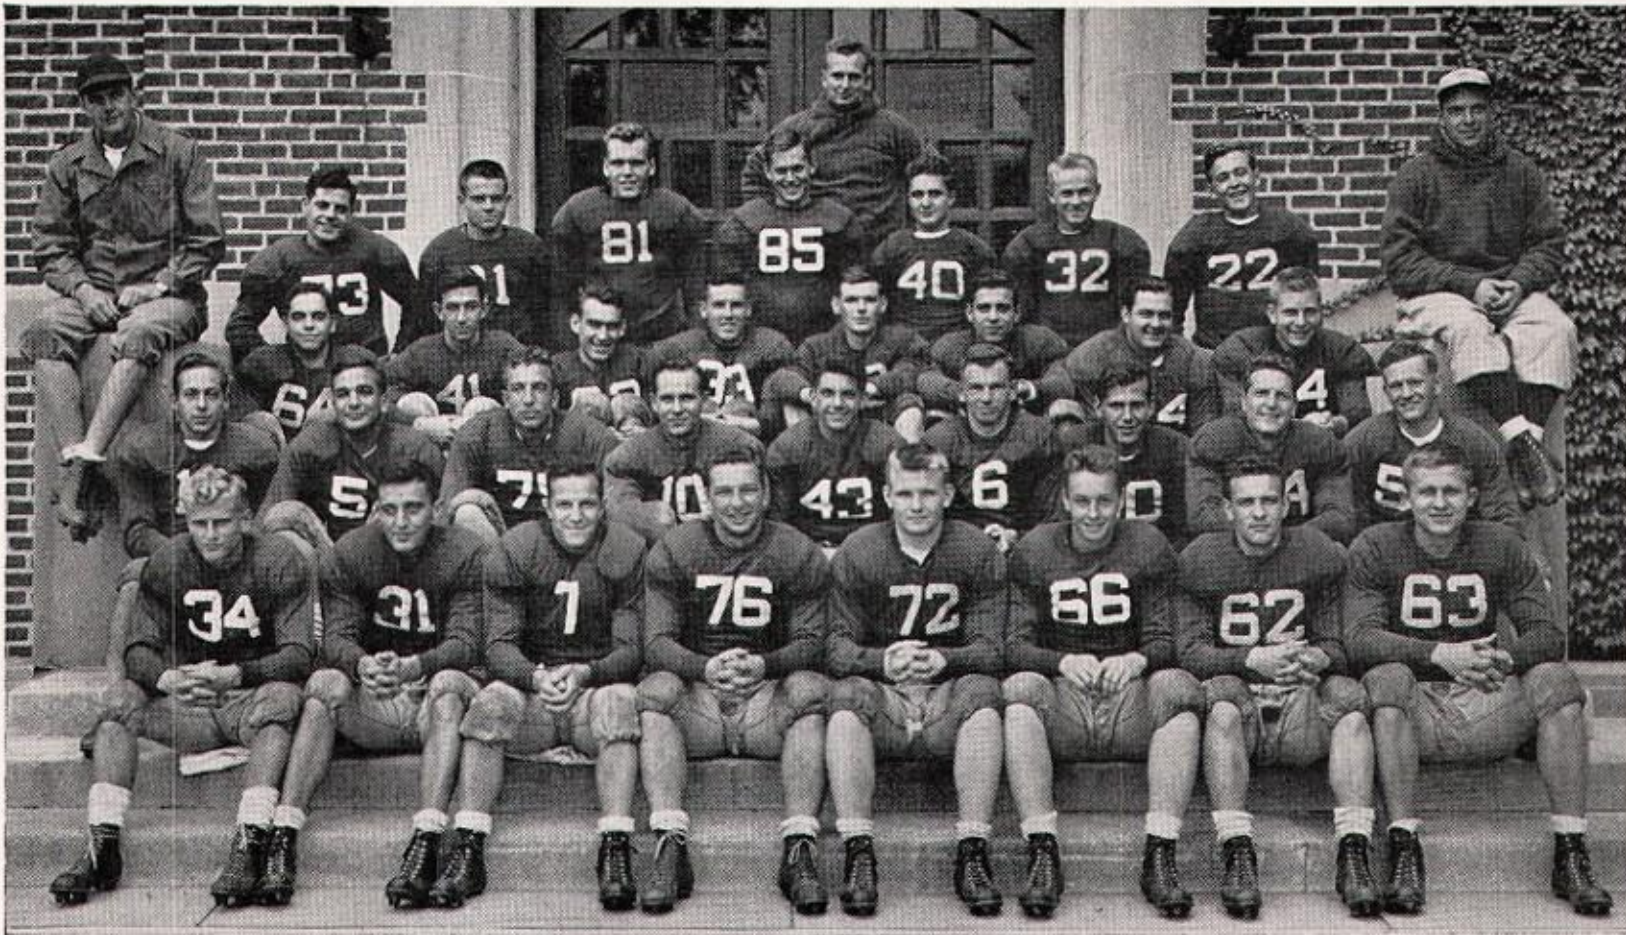

A meeting held on November 20, 1947, resulted in the awarding of letters in Football, Soccer, and Cross-Country.

Theirs is a "behind the scene" job; to the average student, and little is known of the hard work they put in, coordinating the athletic interests of the students. To them, hearty congratulations, a world of praise and the thanks of the entire student body.

Football

First Row, left to right: H. Green, R. Peabody, K. Muccino, H. Melden, A. Riley, J. O'Regan, C. Layton, J. Winslow. Second Row, left to right: H. Greenberg, D. Kolodne, W. Kolodne, P. Junno, R. Ferrari, R. Girard, E. Wilcox, C. Rehrig, M. Ferson. Third Row, left to right: A. Dinsmoor, J. Fitzpatrick, D. Poulin, R. Seagrave, R. Cromack, R. Norris, E. Carpenter, B. Carlson. Fourth Row, left to right: Coach Pritchard, L. DelSignore, D. Lund, M. Nelson, C. Borg, K. Berggren, E. Drechsel, R. Lamphear, Williams, Coach McNulty.

The record of six defeats and no victories established by our grid men this year is a poor indication of the brand of football they played. Without a doubt, this year Tech was in keen competition against some of the finest little college teams in New England. Wesleyan was ranked as one of the best teams in the country for a college of its size, R. P. I. boasted one of their strongest teams in years, while Trinity marched unbeaten throughout their season until their clash with undefeated Wesleyan. And so the story goes, essentially that of a good big team against a good little team. While on the surface the team's showing this year is unimpressive, considering the adverse conditions with which the gridsters had to contend, they made a commendable showing against their more formidable opponents. Late afternoon classes necessitated short practice sessions, while fall shop practice interfered with pre-season practice. At the start of the season, Tech's new coach, Bob Pritchard was faced

with the problem of developing a team from a group of fellows who were entirely strangers to him. This season was the first since 1943 that football was official at Tech, therefore, Coaches Pritchard and McNulty had to start from scratch. These are but a few of the problems with which the coaching staff had to contend at the beginning of the season.

The team reported for practice on September 3 and drilled diligently with two sessions of practice daily, even working out on Sunday when necessary. Our grid men shaped up very well, and upon the arrival of the first game with Wesleyan, Coaches Pritchard and McNulty fielded a team capable of making a good showing against any team.

Our first game with Wesleyan was by far the toughest of the season. The aggressive Wesleyan eleven was well-seasoned in grid-iron tactics, and the combination of a powerful line and talent packed backfield was too much for the Boynton Hillers. Wesleyan scored in the first period on a seventy-five

yard run by their triple-threat back, Harry Forbes. Tech fought back deep into Wesleyan territory in the second period, but the attack stalled, and the half ended with Wesleyan leading by one tally. Two tough breaks for Worcester enabled the Cardinals to break across the Tech goal twice in the second half. The first was a fumble on the Tech 44 yard line which gave Wesleyan the ball, and after a series of passing and running attacks, they scored. The second break was a blocked kick on the thirty-yard stripe which again set Wesleyan up in scoring territory. They capitalized on this and went for their third and final touchdown to defeat the Engineers, 19-0. The Boynton Hillers outplayed Wesleyan as far as first downs were concerned, making nine compared to six for their opponents. The entire Tech team showed impressive play. Captain Harry Melden, Walt and Don Kolodne, and Jim O'Regan were towers of strength in the line, while Howie Green and Ric Ferrari, a newcomer from the freshman class, looked good in the backfield.

Hoping for their first victory of the year,

the Engineers were sadly disappointed when they met a surprisingly powerful Mass. State team at Alumni Field. The Statesmen ruled the contest all the way, while the Tech offensive just couldn't start clicking. Mass. State opened the scoring in the last minutes of the first period, and tallied four more times, twice in the second quarter and twice in the fourth. Tech's only real opportunity to score was stifled by an untimely fumble. After coming out of the half losing 20-0, a spirited Tech eleven marched to the State six-yard line where they fumbled the ball. In the fourth period the Statesmen really took over, in spite of the desperate attempts of the Engineers. Mass. State had just too much power and too many reserves for the under-manned Tech gridsters to cope with, many of the Engineers having played their customary 60 minutes. The final score was 35-0.

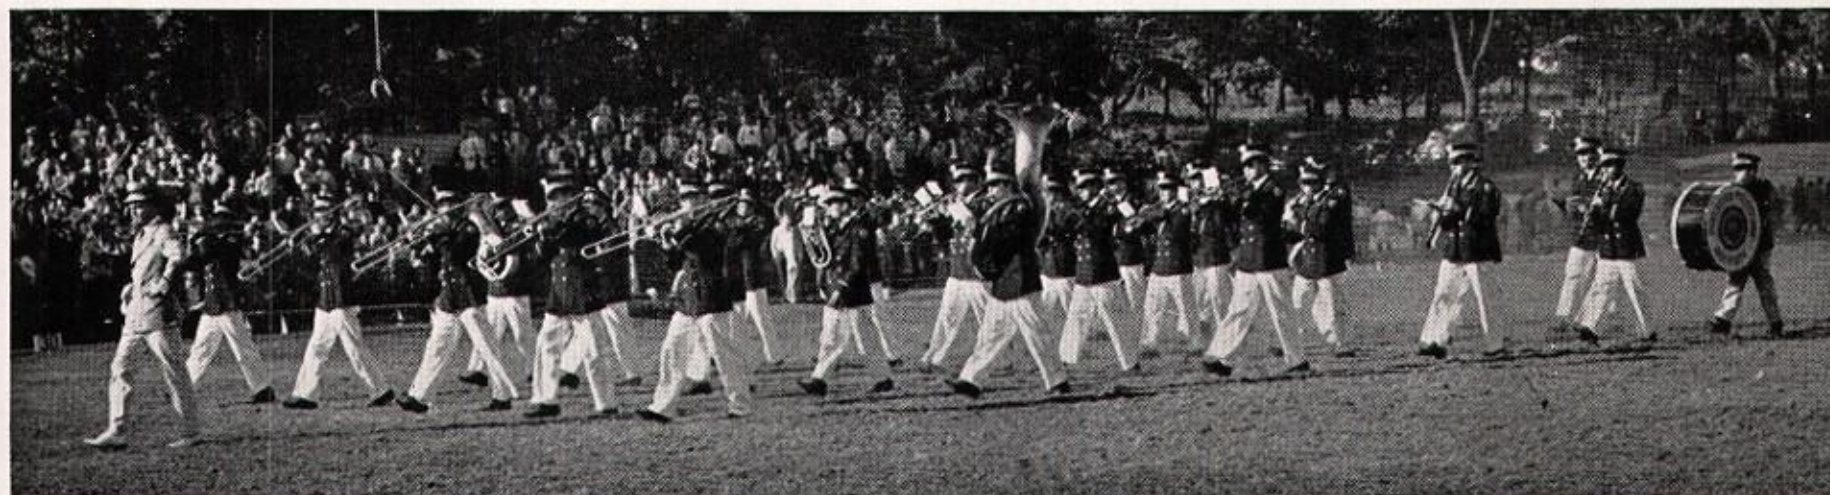

In American International College the Tech grid men found one of their toughest and roughest adversaries. Early in the first period Captain Harry Melden recovered a fumble on the A. I. C. 8-yard line, and Tech

missed its best opportunity to score when a series of running plays made no gain. A. I. C. took over and launched a terrific passing attack, which resulted in their first tally. In the second period the Yellow and Black capitalized on Tech's two major weaknesses, by mixing up long passes with wide sweeping end runs. These tactics paid off for the Aces, and the half ended with the Boynton Hillers on the bottom half of the score. In the beginning of the second half the Engineers were slow to start rolling, and the Aces scored twice, but once the Tech offensive started clicking they were impossible to stop. Capitalizing on fumbles and utilizing the beautiful passing of Bob Carlson and Dick Seagraves, the Engineers put the ball in scoring position. Hard running by Howie Green and Ric Ferrari enabled Tech to score twice, for the first time since 1944. The final score was 25-13. The entire team looked good, with excellent line play and good running by the backs.

When the Trojans of Rensselaer came to Worcester on Alumni Day with their powerhouse, they were very confident of a victory over the unimpressive eleven of W. P. I. They were very surprised with their supposedly weak opponents however, for the Tech team played terrific football. The defense was excellent and was matched by

equally fine offensive plays. In the first half Tech fought their way to within the shadows of the R. P. I. goal twice, only to fall short of first downs by inches. It was in the first half that R. P. I. scored on a series of running and passing plays. At the half the heavily favored Dutchmen from Troy retired to the field house leading by but six points. The game was closely contested throughout the third period with Tech putting up a superb defense against the hard-running R. P. I. backfield. In the fourth quarter the Crimson and Grey started to click, and with passes from Carlson to Ferrari and the hard-running of Howie Green and Ray Girard, the ball was brought to the 6-yard line of the visitors. Here the Dutchmen strengthened, and the Engineers of W. P. I. lost the ball on downs and also lost their last chance to score. The final outcome of the game was 12-0. The entire Tech team was tops in this game, and it is difficult to single out any outstanding player. Again we had the case of a good big team with many reserves, against a very good little team with few substitutes.

Tech's game with Trinity opened with a bang when Green ran 34 yards in the first minutes of the game to score. This was in reality a bad break for Tech, because the previously cocky, undefeated men of Trinity

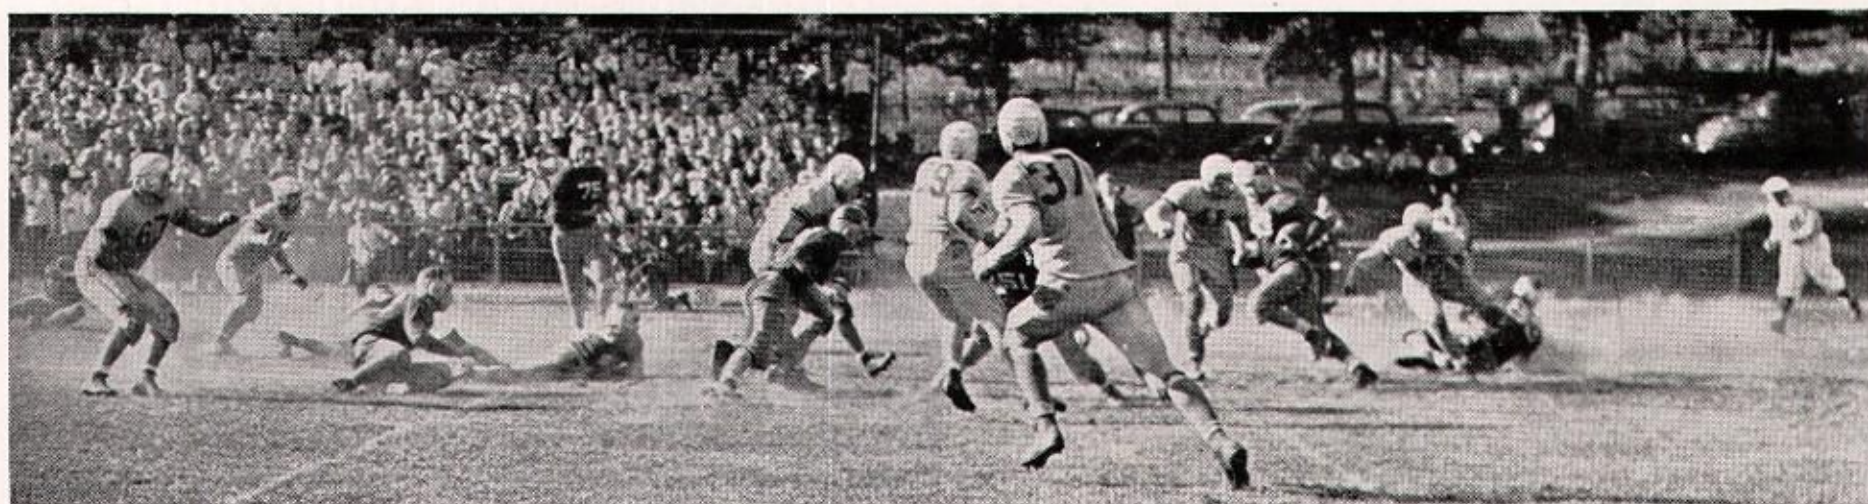

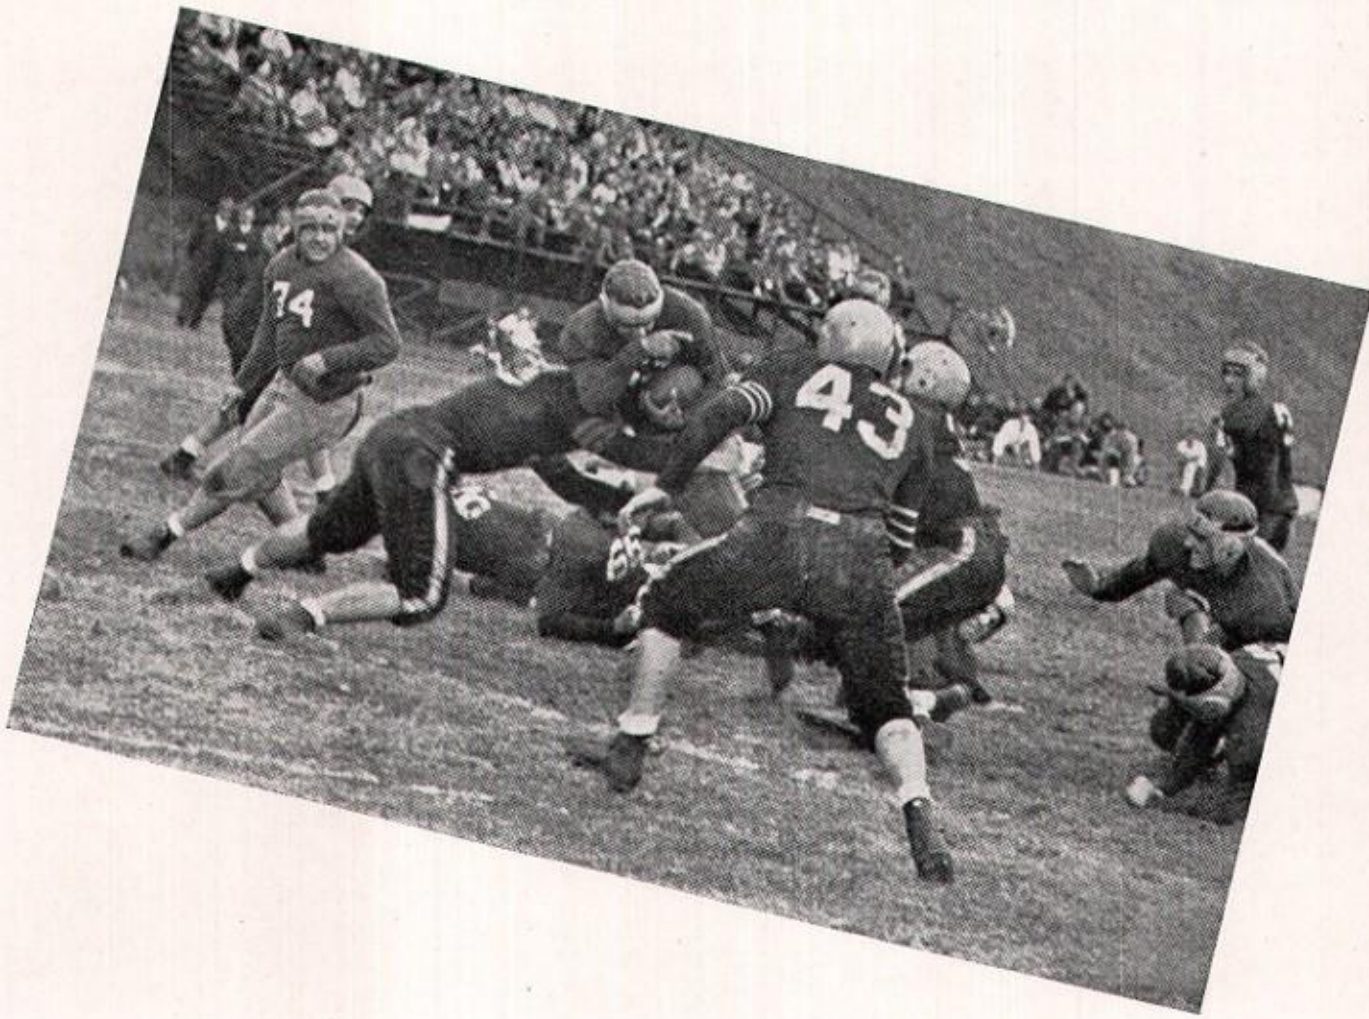

really poured it on after Tech scored, and completely dominated the game from there on in. They seemed to have an unlimited supply of huge linemen and speedy backs, which the Engineers had trouble matching. Tech made several sustained drives into Trinity territory only to lose the ball on downs or by fumbling. The final score was 34-7 in favor of Trinity. Trinity went undefeated and untied all season until beaten by Wesleyan, and the team that made the most yardage against them were the Engineers of W. P. I.

The final opponent of the Engineers in the grid season of '47 was the United States Coast Guard Academy. In this game time and ill fortune seemed to give the Engineers far more trouble than the football tactics of the Academy. In this game the Boynton Hillers were sensational, out-charging, out-running, and out-tackling Coast Guard throughout the contest. Early in the first period Ric Ferrari raced 33 yards to score, only to have the play nullified by a penalty. The first half was one of thrills, with each team threatening to strike pay-off territory, but not quite making it each time. It was in the third period that the Academy opened a sustained drive which the Engineers were unable to stop, and as a result they scored for

the first time in the game. An intercepted pass halted a determined counter-attack by the Engineers who were well on their way to the goal. In the sequence of plays that followed a blocked kick in the end zone gave W. P. I. two points making the score 7-2. In the fourth period Howie Green scored on a quick opener putting Tech in the lead, but Coast Guard fought its way back by running a punt back for a touchdown. The Boynton Hillers maintained the same spirit which they had all season, that of never giving up, and went into pass formation with but a few seconds to go. Bob Carlson completed a long pass to Howie Green who ran from the Coast Guard 25-yard line to the one-foot line where he was tackled. At this point the time ran out and with it went Tech's chance for a victory. Four of the starters, Ric Ferrari, Ray Girard, Howie Green, and Don Kolodne played the entire 60 minutes.

Upon graduation in June, the squad will lose six valuable men, Ray Peabody, Dick Seagraves, Al Riley, Roger Cromack, Charlie Jones, and Chuck Rehrig. In spite of this loss, we can expect Tech to field a team in '48 which will certainly win its share of ball games.

First Row, left to right: M. Ozbas, D. Lund, A. Deloid, D. Horn, O. Kern, J. Meiklejohn, H. Fulmer. Second Row, left to right: M. Underwood, C. Loveridge, E. Sammet, K. Leonard, P. Kahn, V. Chun, D. Skeffington, J. Adams. Third Row, left to right: A. Raymond, H. Mogensen, J. Margo, D. Thompson, B. Campbell, A. Renasco, R. Connell, E. Luiz, Professor Higginbottom. Fourth Row, left to right: M. Sonmez, B. Amsden, J. Gagliardo, S. Temel, C. Hellig.

The 1947 Soccer season at Tech was what is considered a building one. With 90% of the '46 squad graduating last June, Coach Higginbottom's chances for another crack team were dim. With but two returning lettermen, he wisely stressed development and teamwork with one eye on the future.

Viewed from the score column, the record of no wins in seven starts is hardly impressive. This is not quite so overpowering with the fact that Tech was matched against Springfield College, National Champs, and Harvard and Wesleyan, both superior teams in their own right.

With Captain Dick Horne and Al Deloid as nucleus, "Higgie" began developing the material, experimenting with different combinations of men, always seeking teamwork. Among those who reported for the squad at the beginning of the season were several men who played some soccer before. "Clipper" Hellig, Otto Kern, Max Underwood, Pete Kahn, Charlie Loveridge, and Jim Meiklejohn, all had played previously at Tech. Osbaz, Mei, Chun, and Renasco learned the game abroad.

Injuries also hampered the team. The starting goalie, Bill Ritchie, hurt his knee badly in the second week and was lost for the season. Bill Collings proved himself worthy of tending goal. Though only a sophomore with no soccer experience, Bill filled in capably and was an asset to the team's defense.

In the fullback slots were Al Deloid and Kirke Leonard, freshman six-footer from Connecticut. Both men possessed strong and hard boots and their defensive play was a mainstay in the backfield. In the middle of the season, Al was switched to the front line to make use of his speed and

power. Halfback Otto Kern was moved back to fill the berth.

The halfback line, the backbone of any soccer team, had several men with experience to choose from and in the first game of the season Fulmer, Kern, and Kahn started. Bob Fulmer, with three years' high school soccer behind him easily won a starting position at left half. In the Mass. State game, Bob was moved up to the forward wall to convert his speed and aggressiveness into tallies. Pete Kahn, up from the '46 squad, started at center half until his studies forced him to quit halfway through the season. Jim Meiklejohn moved up to fill his place. After Coach Higginbottom put Otto in the fullback line, John Petrillo moved in to take command of the right side.

The mainstay in the front line was Ossie Osbaz of Istanbul, Turkey. His spirit, drive, and tricky ball handling added incentive to the other forwards and his play-making gave them a better opportunity for teamwork. Working with Ossie were wings Clip Hellig, Jim Adams, Don Skeffington, and V. K. Chun. All turned in fine performances and of the four only Clip is graduating. On the insides Max Underwood, Manny Renasco, and Dick Horne vied for the starting assignments throughout the season. Manager Al Raymond worked hard all season and his efforts were an asset to the team.

With nine lettermen returning to the squad next year, "Higgie's" hopes are brighter. Of the nine, three are juniors, four are sophomores and the other two freshmen. With this year's experience absorbed and behind, and a good schedule in front, next year's team is expected to give a good account of itself.

S O C C E R

A quick glimpse at the basketball record of six wins and seven defeats would indicate only a fair season, but this is actually not true. Tech had a good season and a good team. A glimpse at the records does not tell about the heartbreaking losses to Brown (51-53) or to R. P. I. (51-52), nor the fact that, though outscored on seven occasions Tech was never outclassed with the exception of Boston University which was a New England powerhouse.

The season opened in a disappointing fashion with the team losing 45-55 to a so-so Northeastern quintet before a home crowd. The second game was away with Brown and with the score 32-23 against us at the start of the second half, it looked like our second defeat was at hand. But Whitey Carlson's brilliant last half set-shooting closed the gap in the late minutes and it was anybody's game with Brown finally getting the nod. Carlson ended up with 21 points, 16 of which came in the second half.

The team racked up its first victory, a 60-49 win over Norwich while playing before a formal weekend crowd. Again it was Whitey Carlson's brilliant shooting which featured the play. Held to a single point in the first half, Bob pumped in 20 points in the second half on a variety of eye-taking pops from every angle.

Tech never got going in the next game against Fort Devens and fell easy prey, and so it was one win out of four games going into the Arnold game. This proved a thriller all the way with the Crimson and Grey winning 50-44 in an overtime.

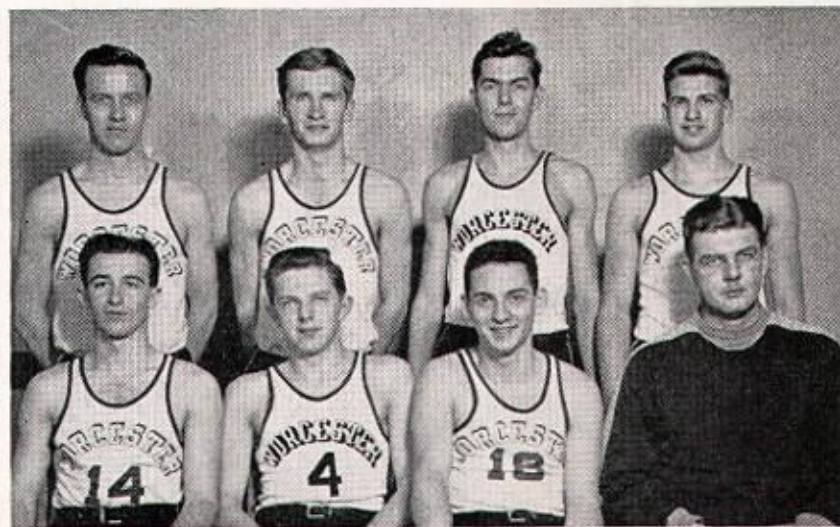

Tech gave Trinity a real scare before finally succumbing 44-39 to the great Red Faber and his mates in a game which had Tech a 15-point underdog in the ratings.

Fort Devens came here in a return game expecting little trouble in taking another, but were trounced instead, 61-49 by a fighting Tech team that really found itself for the first time. The whole team played bang-up ball with Rog Cromack's eight out of nine free throw conversions and all-around play particularly outstanding.

Rusty from their Christmas recess, the team did little that was right against Massachusetts University and ended up on the short end of a 38-36 score. In their game with B. U., the quintet bolted into an 8-0 lead at the outset and maintained the lead for 12 minutes but B. U.'s class could not be denied and they romped to an easy and impressive 67-45 win.

Tufts proved no trouble once Steve Ucich started hitting in the second half. Steve couldn't miss and his 16-point second half total gave us our 51-37 margin of victory.

American International was equally unsuccessful in their fire-horse tactics as Captain Concordia personally put out the fire. John intercepted so many passes and played such

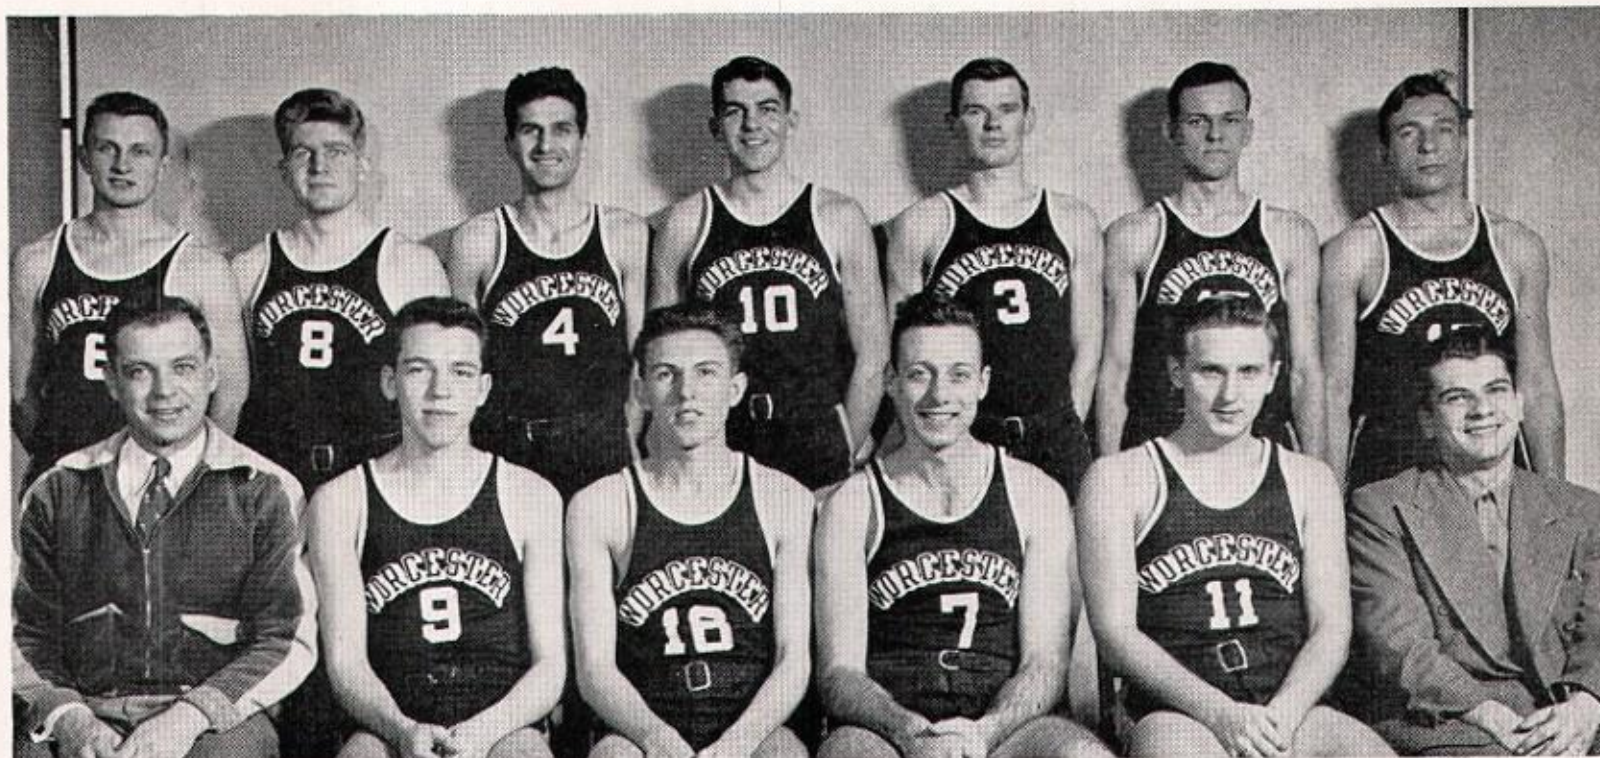

J. V. BASKETBALL: First Row, left to right: E. Lewis, G. Edwards, P. Michelman, Coach Pritchard. Second Row, left to right: P. Groop, J. Dillon, H. Griswold, R. Luce.

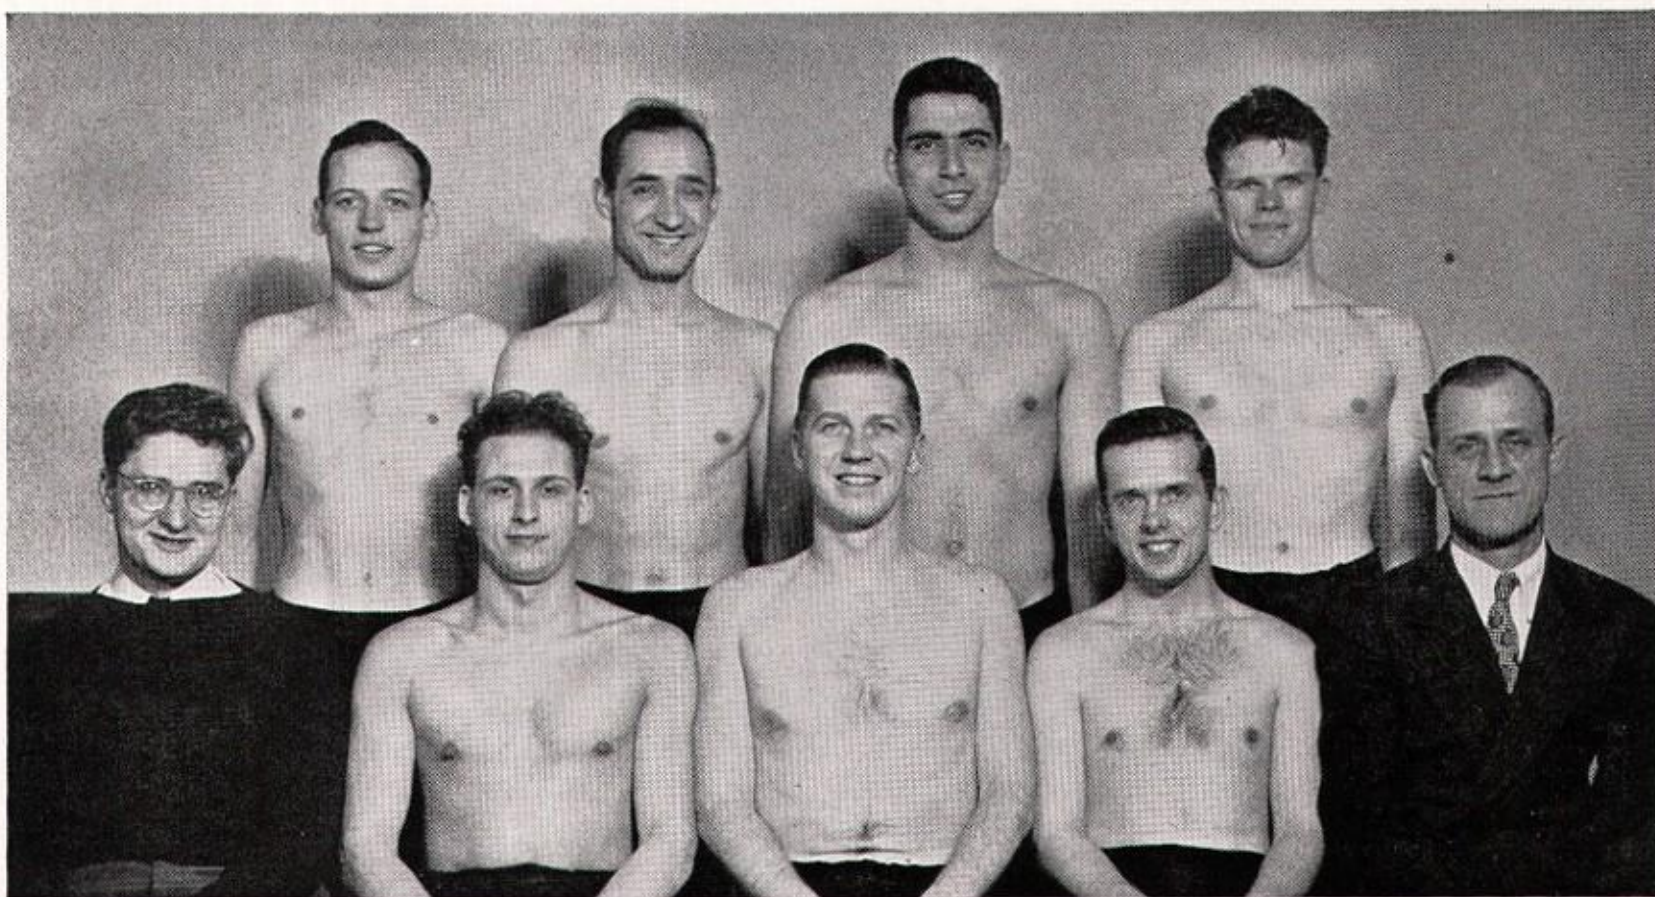

an outstanding game that the Aces were completely demoralized and petered out by a 50-32 score. Tech then went on to make it three in a row and revenged an earlier defeat at the same time by knocking off Massachusetts University 41-35. The win also evened up the season record at six wins and six losses.

Chances for a winning season seemed remote when R. P. I. rolled in for the 13th and final game since the New Yorkers were rated 14-point favorites. And with Tech down 15 points at the half, the team wasn't given a Chinaman's chance of winning. We roared back in the second half and put on a rally that had the crowd on its feet, cheering wildly as Tech pulled up closer and closer only to be denied in the last seconds of play when Richie Howard's desperation shot rolled around the hoop, wavered, and fell away to give R. P. I. a one point win.

Yes, it was a good season and a good team. Much of the credit goes to Coach McNulty who did a grand job in his first year as cage mentor, and to John Concordia, an outstanding and inspirational team captain. John was immense all season and his playmaking and brilliant defensive work will be long remembered. Gone, too, will be Jim McKernan and Rog Cromack, the elongated centers. Jim wound up high scorer for the team, and Rog proved a steady and dependable performer. However, Steve Ucich and Whitey Carlson will be back next year as will Ritchie Howard who came along very fast at the end of the season. With these three as a nucleus, Tech's outlook for next year definitely looks promising.

*First Row, left to right: E. Drechsel, P. Kahn, R. Olson, R. Ballard, F. Grant.
Second Row, left to right: L. Fishman, S. Hassan, S. Madwed, B. Bowen.*

Bright lights on wet tile—the clatter of the wood diving-board followed by a quiet plop—the slow, even slosh of the distance men and the churning of the short event swimmers—pool sounds which are broken every afternoon of the tank season by the sharp voice of Frank Grant—elbows, knees, backs, hands—all are molded into the place they must stay to produce speed in water—molded under the watchful eye of the Coach.

This year the molding began long before the first meet. When the annual call for swimmers went out the response had that hint of added enthusiasm that all campus activities have felt in these days of return to pre-war standards. An encouraging number of freshmen arrived to signify this tendency. But, as usual, the number was still too small to promise a powerful squad.

Although we lacked depth, we were assured of quality early in the season as we watched returning lettermen Olson and Kahn ripple the water along with veteran swimmers Bowen, Ballard, Brown, and Hassan. Also working hard to cut down their times were newcomers Madwed and Fish. Freshmen Hodgett, Brown, Lancey and Johnson were putting in their hours too in the hope that a freshman squad would be formed. (Although the squad never materialized, these men will be back next year as excellent Varsity material).

Everyone had an eye on the first meet which was to be away at Connecticut University. It turned out to be somewhat onesided as Bowen, a backstroker, was the only WPI man to take a first place. Hearts were lifted at the following meet, however, as B. U. had to swim hard to win 44-31. At this meet observers saw the big three: Bowen in the backstroke, Kahn in the breast stroke and Madwed in the freestyle (who were to be the big winners of the season) start their string of firsts. Not without reason were the mermen's fans encouraged, for the next match with Tufts saw Tech lose by only one point and it was generally felt that the loss was only due to bad breaks.

Mid-year vacation took its toll because one week after returning to school we slipped out of form and were beaten by a strong Trinity outfit. Two weeks later, at Massachusetts University we dropped the meet again. However, with events calling for fourteen swimmers it is a credit to our men that we did as well as we did—a squad of only six Tech men represented WPI. Again it was a case of strong swimmers but not enough depth.

A statistician, on looking at the figures might rate the season poor but on asking the swimmers themselves you'll find they tried hard and enjoyed trying—the finest sportsmanship of all.

S w i m m i n g

The Tech baseball team was girding itself for battle as this book went to press. There has been some shuffling of positions, but in the main, Coach Charlie McNulty is sticking with his hold-overs from last year. The 1947 team was a good deal stronger than their record showed. On the days when Ross Chapin, the Engineer's sidearming righthander was in there, the boys looked well-nigh invincible.

Jim O'Regan who was a right fielder last season has donned "the tools of folly" and seems to be turning in a capable performance. Russ Bradlaw, a veteran of the '46 season is back on the squad and his presence at second base should strengthen the infield considerably. Utility infielder John Concordia is patrolling O'Regan's old precinct in right field and Sophomore Don Thompson and Freshman Don Stewart are fighting for Hal Schmucki's left field precipice. Back at their usual stands are Captain and centerfielder Jim McKernan, shortstop Bill Carlson, third baseman Johnny George, and first sacker Steve Ucich.

Last year's Ace Ross Chapin along with George Strunz, Dick Seagraves, and Red Shattuck comprise the pitching squad; if they can turn in a few good performances, Tech's athletic fortunes should continue on the upswing.

B. Fulmer

CROSS COUNTRY

The 1947 Cross Country season opened here in a meet with the University of Massachusetts. A new course that had never been used before was used in this opening meet. However, this was not much help to the Tech boys and they lost 46-16.

The next meet found Tech in Boston competing against Northeastern. Tech once again came out on the short end of the score, losing 39-19. Among those scoring for Tech were Dave Brown second and J. Reid seventh.

Trinity came to Worcester for Tech's third meet of the season. This time the Boynton Hillers were victorious, winning by a score of 31-24. Many of Tech's men featured in the scoring with Dave Brown finishing second, J. Reid third, F. Holby fifth, F. Sisson sixth, H. Hawley eighth, S. Muthiah ninth, and R. Rodier tenth.

Rensselaer supplied the opposition for Tech's fourth meet and their third at home. Despite the fact that Dave Brown came in first and three other men figured in the scoring for Worcester, we lost 34-24.

For the fifth meet the team journeyed to Boston to run against Boston University. Again Tech was unsuccessful, losing 38-22. However, Dave Brown came in first and set a new record for the course. His time was sixteen minutes twenty-five seconds breaking the previous record held by Ted Vogel of Tufts.

The last meet of the season was held here in Worcester and was against Coast Guard. Tech lost this one 41-21, giving them a season's record of one win and five losses. Dave Brown and Frank Holby, who was running his last race for Tech, came in third and tenth respectively. Scoring fifth was J. Reid, a freshman who showed promise all season.

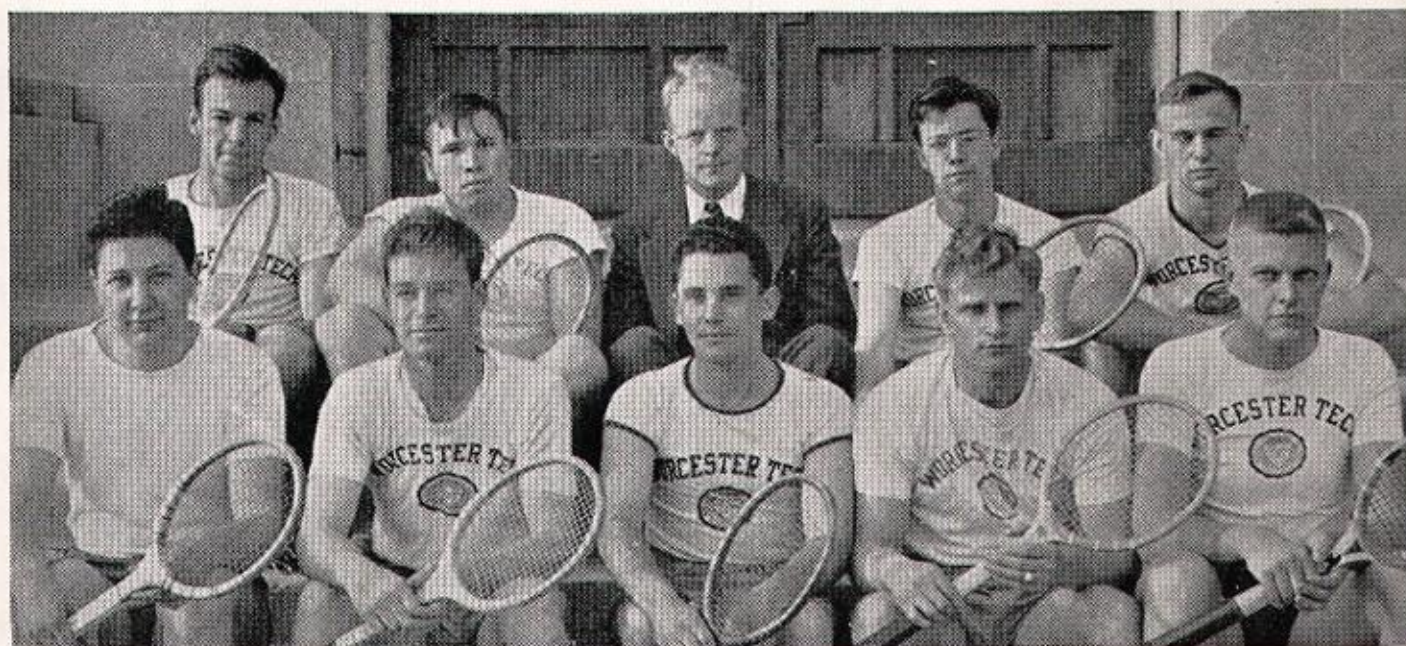

INDOOR TRACK

Tech wound up its second indoor track season since the war without a win, but with plenty of good experience and excellent prospects for next year.

The relay team of Al Deloid, Dave Brown, Bud Watson, Bob Fulmer, Harvey Howell, and alternate Subbiah Muthiah with Dave Brown as captain and Jack Murtha as manager ran in two meets. The K. of C. Relays found Tech third in a field made up of Tech, R. P. I., University of Massachusetts, and Middlebury. In the B. A. A. Games, the baton bearers took another third, this time competing with Bowdoin, Bates and Northeastern.

The indoor track team made a hot contest out of its only competition, which was a triangler meet at Amherst with the University of Massachusetts and the University of Connecticut. Tech copped five of the eleven first places, but could not come through in enough of the seconds and thirds to take the meet. Freshman Harvey Howell was easily the star of the meet with three firsts, followed by Al Deloid with two. One of Howell's firsts was a cage record of 4.7 seconds in the low hurdles. Final score: University of Massachusetts 49, University of Connecticut 48, and W. P. I. 43.

Coach Sannella and the teams were well pleased with the showings made in both the relays and track meet, and feel that they will do well with the returning squad next year.

TENNIS TEAM: *First Row, left to right:* N. Fishman, R. Smith, B. Dember, H. Green, R. Nickander. *Second Row, left to right:* S. Winther, H. Fishburn, Mr. Wadsworth, C. Luiz, B. Julian.

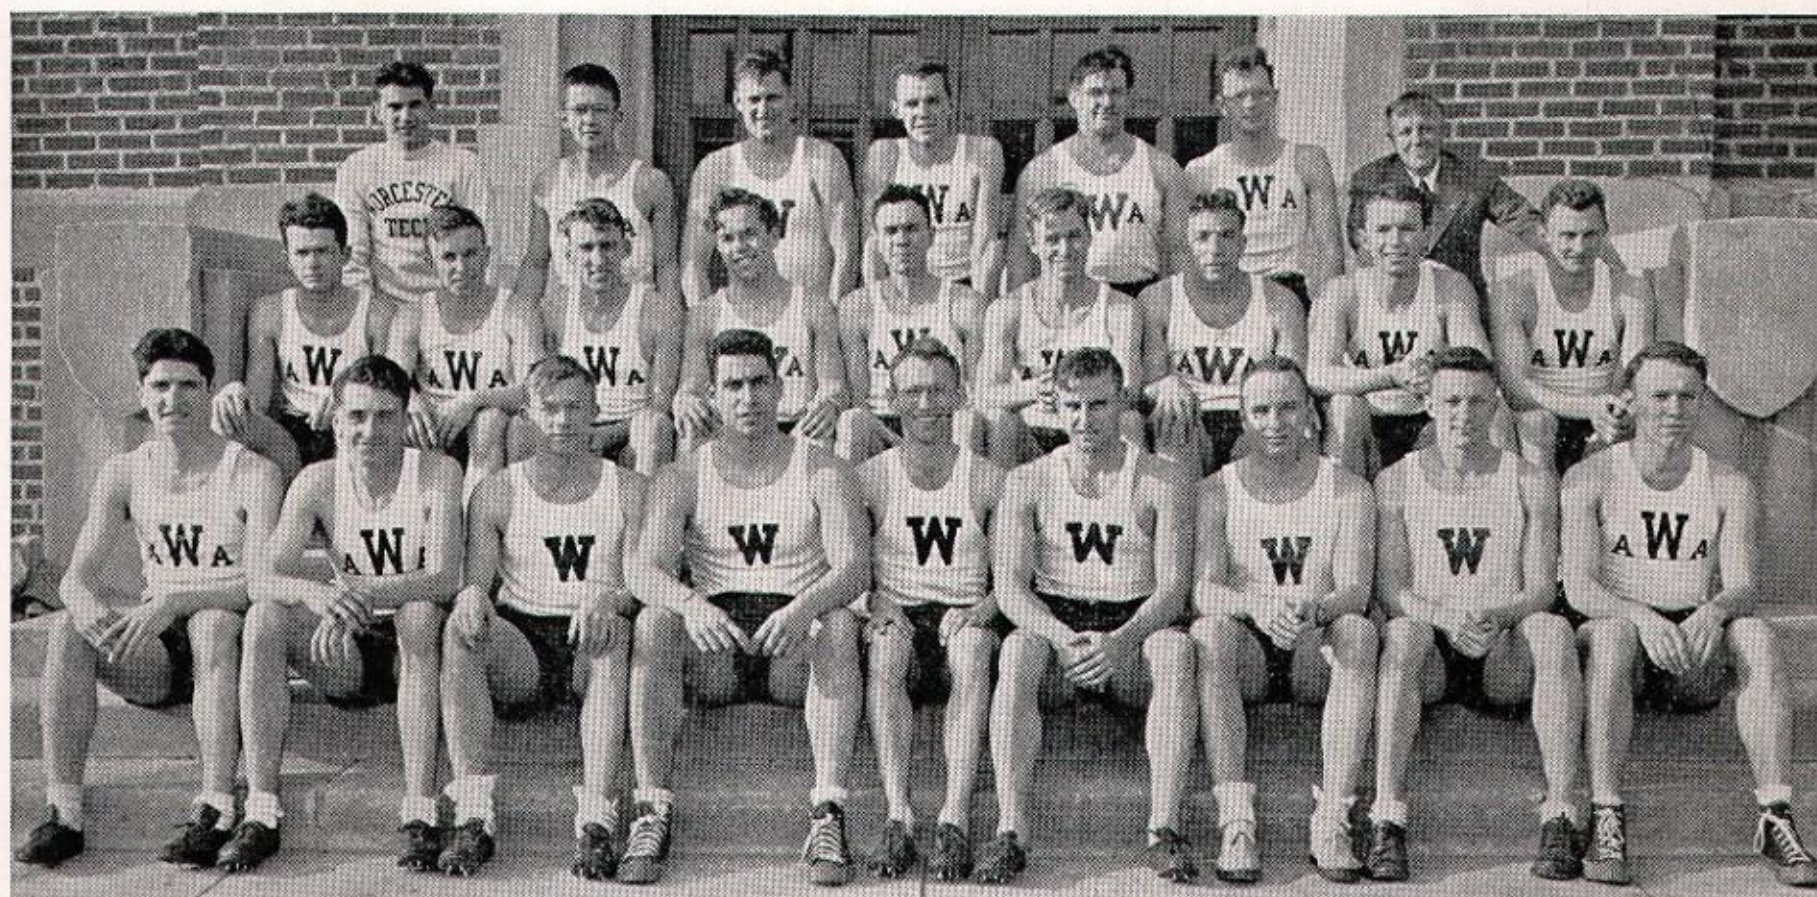

Despite a late and damp spring, the Tech Tennis Team has slowly been taking shape. The loss of two of last year's lettermen has hampered the present team. Returning lettermen are the team's captain, Buddy Dember, Howie Green, and Niel Fishman. Other men from last year's squad are Pike Fishburn and Mal Horton.

This year's squad is under the able direction of Professor Wadsworth, a

leading local tennis enthusiast. The original squad of over twenty candidates is being cut down by a series of inter-squad matches. Many freshmen have shown excellent ability and hopes are high for their strengthening the present and future W. P. I. Tennis Teams.

As the PEDDLER goes to press, the team is still awaiting consistent warm weather. Games are scheduled against M. I. T., University of Mass., Trinity, Boston University, Tufts and Devens.

Spring Track

First Row, left to right: S. Herman, J. Reid, B. Hastings, S. Madwed, D. Brown, A. Deloid, G. Howe, H. Howell, H. Brown. *Second Row, left to right:* B. Hawley, R. Turner, G. Dewire, E. Peterson, R. Staples, F. Holby, W. Kolodne, R. Wye, G. Barna. *Third Row, left to right:* J. Adams, R. Fulmer, C. Borg, H. Lovell, E. Carpenter, F. Sherman, Coach Sanella.

RIFLE TEAM: *First Row, left to right: C. Allen, A. Burns, B. Gowing, E. Dion, C. Darrell. Second Row, left to right: W. Lloyd I. Goodchild, D. Covill, R. Leavitt, R. Cochran.*

The Rifle Team has concluded a season of twelve intercollegiate matches under the auspices of the New England College Rifle League. In 9 of these, the Tech riflemen were victorious, and in the remainder they were defeated by slim margins. The majority of this season's contests were fifty foot postal matches, although several were fired shoulder to shoulder for experience under those conditions.

Since the team's activities are centered in the basement range of the Alumni Gym, the Rifle Team is one of the least publicized groups on the Hill. They have not, however, been lacking in activity. In addition to the matches themselves, many members take advantage of the facilities for recreational shooting with either rifles or pistols. During the fall and spring, the firing of heavier calibers is conducted at the Worcester City Range in Shrewsbury.

The Club is a part of the New England College Rifle League and is affiliated with the National Rifle Association. The officers are: President, Ed Dion; Vice-President and Team Manager, Art Burns; and Treasurer and Secretary, Jim Marston. They have planned a full program for the future. Matches were held during this past season with Bowdoin, R. I. State, Connecticut State, the University of Vermont, Yale, the Coast Guard, Massachusetts University, Norwich, Brown, M. I. T., and the University of New Hampshire.

Active members include: E. Dion, A. Burns, J. Marston, E. Cornell, R. Gowing, J. Malay, C. C. Allen, D. Leavitt, S. Friedman, B. D. Lund, T. S. Chaddha, D. Covill, D. White, R. Foltz, C. Darrell, and J. Carroll. The first two matches with Bowdoin and R. I. State were won by Tech.

Golf

First Row, left to right: H. Trainer, C. Hellig, R. Baldwin, K. Muccino, W. Mussoni. Second Row, left to right: P. Schonning, H. Styffe, E. Dion, B. Sloane.

Increase Efficiency Throughout the Mill with Morgan Equipment

- 1 Available to you is a staff of **Rolling Mill Specialists** always ready to show you the newest ideas in mill layout and equipment.
- 2 **Morgoil Roll Neck Bearings** on your present stands will increase the accuracy of your products and increase the yield and reduce maintenance costs.
- 3 **Morgan-Connor Wire Machines** are designed to operate faster and more efficiently, to reduce power, die and maintenance costs and to make the maximum use of floor space.
- 4 Increase furnace capacity and efficiency with an **Isley Furnace Control System**. It gives positive control of the furnace, makes better use of fuel, melts more metal per hour.
- 5 Control hot gases and fumes with a **Morgan Air Ejector**. Gases as high as 3000° F. can be handled without injury to the equipment because they do not pass through the fan.

Our entire organization is ready to go to work on your problem. Why not get in touch with us?

A GOOD PLACE TO MEET YOUR COMPETITION

With full scale competition in swing once more, new, modern and exclusive features in your product are essential to successful selling and continued profits. To this end, the proven merits of exclusive custom injection moulding and the facilities of Worcester Moulded — the largest in the East — can serve you to advantage, exactly as though they were your own plastics department. Our designing, engineering, moulding and finishing departments offer you complete service in the development of plastic parts and products — a good place — and way — to meet your competition.

To the Class of 1948

The Heald Machine Company, pioneers for well over a century in the field of Precision Grinding and Borizing Machines, is proud of the many W. P. I. men in its organization.

As employers of several hundred engineers and technicians, we are keenly interested in the careers of the individuals in each W. P. I. graduating class.

The whole world is enveloped in an era of technical research and development, and the role of the engineer in industry today is more important than ever before.

We extend our best wishes for the continued success of all Tech graduates.
